466227K

PRO LINE™ MULTI-PURPOSE FIRE EXTINGUISHERS

Featuring metal valves and aluminum or steel cylinders, these extinguishers are designed to meet most commercial and industrial applications. Their seamless cylinders also come with chip-resistant paint, and their handles and levers are made of pressed heavy-gauge metal for added strength. Checking the pressure is fast and easy, too, thanks to at-a-glance gauges. These units use a non-toxic monoammonium phosphate agent that effectively fights Class A, B, and C fires.

ADVANTAGE™ FIRE EXTINGUISHERS

Made to handle easier and recharge quicker, these extinguishers feature a larger neck opening and a square thread design for rapid valve removal. Their siphon tubes are also threaded for a more secure connection, and their hose straps won't scratch their cylinders. Their larger pull pins and handles are easy to use, too—even with work gloves. Depending on extinguisher size and fire type, they can be used in vehicles, homes, schools, offices, and more.

AUTOMOTIVE EXTINGUISHERS

THE WHY TO BUY

In 2013, there were 164,000 highway vehicle fires resulting in over $1.1 billion in direct damages. The DOT requires vehicles used to transport hazardous materials in a quantity that requires placarding must be equipped with a fire extinguisher having an UL rating of 10B:C or more. A vehicle that is not used to transport hazardous materials must be equipped with either a fire extinguisher having UL ratings of 5B:C or more; or two fire extinguishers, each of which has a UL rating of 4B:C or more.

MARINE EXTINGUISHERS

THE WHY TO BUY

The United States Coast Guard requires Coast Guard hand-portable fire extinguishers with a UL Class B rating and a marine-type mounting bracket for motorboats using flammable fuels. It is recommended that extinguishers be mounted in a readily accessible position, away from the flammable areas such as a galley or engine compartment. When selecting a fire extinguisher for marine use, make sure that the bracket used is the one shown on the extinguisher label.

REQUIRED PORTABLE FIRE EXTINGUISHERS
(motorboats without a fixed fire extinguishing system)

Length of Boat	Minimum Number of 5-B Rated Fire Extinguishers
Under 26 Feet	1
26 and over, but under 40 feet	2*
40 and over, but not over 65 feet	3*

EXTRA PURPLE K FIRE EXTINGUISHERS

23778B

Designed for use on high-hazard Class B and C fires, these high-performance units are generally superior to other dry chemicals, making them ideal for industrial and commercial settings where flammable liquids are stored.

NON-MAGNETIC WATER MIST FIRE EXTINGUISHERS

These water mist extinguishers contain de-ionized water (sold separately) making them the best extinguishers for protection of hospital environments, valuable books and documents, telecommunication facilities and "clean room" manufacturing facilities. MR conditional—non-magnetic, construction tested by an independent agency for use in MRI facilities to 11.7 Tesla (including wall hanging bracket).

21111B

DID YOU KNOW?

Although foam fire extinguishers are rated for use on both Class A and Class B fires, they are normally installed where a spill or pool-type fire could occur. When foam is applied from an extinguisher, it will naturally spread across the burning liquid surface, effectively smothering the fire. If the flammable liquid vapor is prevented from contacting air, the fire is extinguished. Although re-ignition is a possibility with other extinguishing agent applications, it is nearly impossible due to the foam blanket preventing fuel vapors from contacting air.

FOAM FIRE EXTINGUISHERS

Thanks to their air aspirated nozzles, these units offer an easy and effective defense against Class A and B fires. They're ideal for use in emergency first response vehicles.
NOTE: Units ship empty.

FIRE EXTINGUISHER STAND

Ideal for wherever a fire extinguisher is required but cannot be permanently mounted, this portable stand holds a 5, 10, or 20 lb dry chemical or clean agent fire extinguisher. Its 16" x 16" base features a molded-in handle for ease of movement and a large, 2½" fill hole for adding sand (not included) to weigh it down. The heavy-duty upright attaches easily to the base—without the use of tools. Constructed from red, powder-coated steel that is pre-drilled for a fire extinguisher wall hook. Holds up to 35 lb of sand.

Part No	Description
FES1BR	Portable Stand

FMRGC In Use

STACKABLE FIRE EXTINGUISHER STAND

Stackable stand is made of tough HDPE plastic and holds a 5, 10, or 20 lb extinguisher. Its wide base resists tipping as well. OSHA compliant. Measures 34"H x 21"W x 21"D with an 8"H x 7¼"W x 7¼"D recess for an extinguisher. Red.

FGC26BR

FIRETECH

FIRE EXTINGUISHER CABINET MOUNTING HEIGHT

THE WHY TO BUY

Mounting height requirements apply to extinguishers on hangers, in cabinets, in strap-type brackets, and in the old-style wall recesses. The top of an extinguisher can't be more than 5 ft above the floor if the gross weight is 40 lb or less. Where an extinguisher gross weight exceeds 40 lb, the extinguisher is installed so the top is no more than 3.5 ft above the floor. In order to allow for cleaning under the extinguisher and to prevent corrosion, no extinguisher should ever be on the floor and the minimum mounting distance from the bottom of the extinguisher to the floor can't be less than 4 inches. The 4-inch clearance also ensures the extinguisher will be secure on a hanger and will not be easily dislodged by impact.

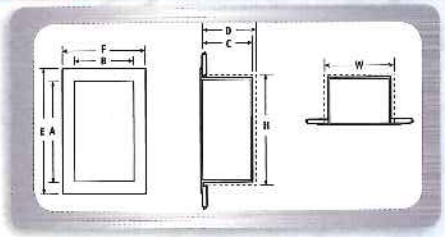

1017F10JL In Use

JL INDUSTRIES

AMBASSADOR SERIES STEEL CABINETS

Sturdy cabinets feature a white epoxy finish, continuous hinge door, double-strength door glass, and a 1¼" face width on the trim and door. They come in surface mount, fully recessed (flat), and semi-recessed (1½" or 3" trim) models. The 3" trim model has rolled edge construction; the others are square edged. Full-glass doors have zinc-plated pull handles and roller catches.

NOTE: Add wall material thickness to wall depth when determining cabinet size (for example, a standard 2" x 4" stud wall with ½" sheetrock would equal a 4" wall depth).

STEEL CABINET & FIRE BLANKET

All-steel cabinet features a tailgate-style door and measures 10"H x 16"W x 7⅜"D. Blanket is treated for fire retardancy and measures 80" x 62".

Part No	Description
650207JL	Steel Cabinet (Only)
650200BR	Fire Blanket

650203BR

FIBERGLASS FIRE BLANKET WITH CASE

Blanket comes in a low-profile plastic case complete with instruction labels and pull straps for quick deployment. Case measures 14¼"H x 6¼"W x 1½"D. Blanket measures 72" x 48".
NOTE: Single use.

Part No	Description
650203BR	Blanket w/ Case

RACK & REEL FIRE HOSE

Rack hose is fully lined and comes with brass couplings. It's also pre-folded for easy installation on pin racks. Pressure ratings: 500 psi (proof test) and 250 psi (service test). FM approved.
NOTE: For emergency use only.

Part No	Description	Size
50NPSHFT	R&R Hose, Brass NPSH	1½" x 50'
50NSTFT	R&R Hose, Brass NST	1½" x 50'

75NSTFT	R&R Hose, Brass NST	1½" x 75'
100NPSHFT	R&R Hose, Brass NPSH	1½" x 100'
100NSTFT	R&R Hose, Brass NST	1½" x 100'

75NSTFT

FIRETECH

POLYCARBONATE FIRE HOSE NOZZLES

Poly nozzles offer two advantages over brass versions—they are less expensive and virtually vandal proof, having no recyclable value. Nozzles come fully adjustable too. Red.
NOTE: For firefighting use only.

Adjustable Fog Nozzles

For Class A and B fires.

Part No	Description
10IPTBR	Nozzle, Fog/Stream/Shut-Off, 1" NPSH, 30 gpm
10NSTBR	Nozzle, Fog/Stream/Shut-Off, 1" NST, 30 gpm
15IPTBR	Nozzle, Fog/Stream/Shut-Off, 1½" NPSH, 78 gpm
15NSTBR	Nozzle, Fog/Stream/Shut-Off, 1½" NST, 78 gpm
25NSTBR	Nozzle, Fog/Stream/Shut-Off, 2½" NST, 210 gpm
2520NSTBR	Nozzle, Fog/Stream/Shut-Off w/ Handles, 2½" NST, 150 gpm
10GBR	Gasket (For 1" NST Nozzles)

15NSTBR

10NSTBR

2520NSTBR

25NSTBR

All-Fog Nozzles

For Class A, B, & C fires.

Part No	Description
E15IPTBR	Nozzle, Fog/Shut-Off Only, 1½" NPSH, 78 gpm
E15NSTBR	Nozzle, Fog/Shut-Off Only, 1½" NST, 78 gpm

BRASS ADJUSTABLE FOG NOZZLES

Nozzles are fully adjustable and precision machined for optimum performance—straight stream through full fog and shutoff. UL listed for Class A and B fires and FM approved. 106 gpm. Forged brass.

Part No	Description
N113BR	Nozzle, 1½" NST
I113BR	Nozzle, 1½" NPSH

N113BR

PIN RACK NIPPLE

For supporting and maintaining hose rack assemblies. Forged brass.

Part No	Description
N311BR	Nipple, 1½" NPT x 1½" NST

N311BR

FIRE HOSE STORAGE DEVICES

ECONOMY HOSE REELS

FHRBR

Reels offer reliable fire hose storage at a reduced price point and come with a 16 ga steel wall bracket that swings 180°. Red.

Part No	Description	Rack Hose	SJ Hose	DJ Hose	Hose Dia	L	H	W
FHRBR	18" Hose Reel	100'	75'	–	1½"	23½"	18"	6½"
FHR24BR	24" Hose Reel	150'	100'	–	1½"	29"	24"	6¼"

FIRETECH

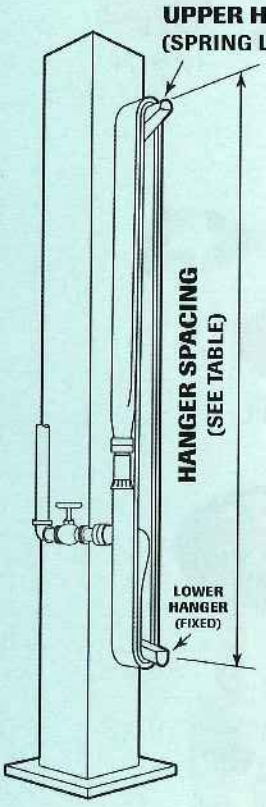

HEAVY-DUTY HOSE REELS

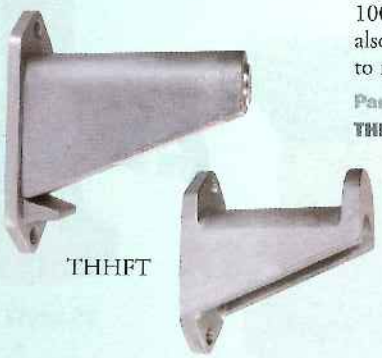

HDR19BR

Featuring a more robust design, these reels use solid 16 ga steel sides and hubs for maximum durability. The mounting hardware is tough, too, featuring welded steel 1" x 3/16" reel brackets with 1½" x ¼" steel wall brackets that swing 180°. Includes hook-and-loop back straps to secure hose. Red.

Part No	Description	Rack Hose	SJ Hose	DJ Hose	Hose Dia	L	H	W

Alarm Placement Guidelines

Ionization Smoke Alarm: Provides early detection against smoke and fire, especially effective against flaming fires.

Photoelectric Smoke Alarm: Provides early detection against smoke and fire, especially effective against smoldering fires.

Carbon Monoxide Alarm: Detects presence of deadly carbon monoxide.

Heat Detector: Detects temperatures 135°F or greater for areas where smoke alarms can false alarm due to auto exhaust or cooking fumes.

Strobe Light For Hearing Impaired: For persons who cannot hear an alarm.

Relay Module: Activates or deactivates auxiliary devices such as whole house fans, security lights or sirens.

Placement guidelines for life safety devices as recommended by the National Fire Protection Association and National Home Builders Association are Important! Refer to owners manual for proper installation and product placement information.

WORRY-FREE DC SMOKE/CO COMBO ALARM – PHOTOELECTRIC

Protecting against fire and CO, this alarm comes with a sealed lithium battery for 10 years of worry-free protection. And it uses both an advanced photoelectric sensor for smoke and an electrochemical sensor for CO. These two features communicate, too, automatically adjusting the sensitivity to better identify real hazards and reducing nuisance alarms when cooking. The alarm is also self-activating and comes standard with a test/hush button and LED indicator. Ten-year warranty.

Part No	Description
21010170*	DC Smoke/CO Unit, Sealed Lithium

**Cannot ship to AK, HI, PR, or Catalina*

21010408

WORRY-FREE AC/DC SMOKE/CO COMBO ALARM – IONIZATION

Get 10 years of worry-free protection against fire and CO with this hardwired alarm. It comes with a sealed, maintenance-free lithium battery backup, voice warning, and intelligent sensor technology. There's also a test/hush button that reduces nuisance alarms, and peak level memory, which alerts users that the unit has detected CO concentrations of 100 ppm or higher. 120 VAC. Ten-year warranty.

Part No	Description
21010408*	AC/DC Smoke/CO Unit w/ Sealed Lithium Backup

**Cannot ship to AK, HI, PR, or Catalina*

9000216

DC CO/FIRE/SMOKE COMBO ALARM – IONIZATION

Combining the detection capabilities of an ionization smoke sensor with that of an electrochemical sensor, this alarm offers a fast response to fast-flaming fires as well as carbon monoxide. It also adjusts its smoke sensitivity to better discriminate between a real hazard and a false one and features a front-load battery tray. And it comes with a voice warning that clearly states the present danger—smoke or carbon monoxide—announcing "Fire! Fire!" or "Warning! Carbon Monoxide!". Ten-year warranty.

Part No	Description
9000216	DC Combo Unit, 3AA Alkaline
21025831K	Kidde AA Batteries, 4/Pkg

Batteries Included w/ All "DC & AC/DC" Units

AC/DC SMOKE/CO COMBO ALARM – PHOTOELECTRIC

Front-loading alarm offers protection against two hazards—fire and carbon monoxide—in one unit. When activated, it emits a beeping tone, followed by a voice warning that clearly announces "Fire! Fire!" or "Warning! Carbon Monoxide!" The uniquely designed front-loading battery compartment also makes battery replacement quick and easy and ensures proper installation. Manufactured with photoelectric sensors for detecting slow, smoldering fires, this alarm also includes the world's most accurate CO sensing technology. Seven-year warranty.

Part No	Description
21007624	AC/DC Smoke/CO Unit w/ 9V Battery Backup
21025830K	Kidde 9V Batteries, 2/Pkg

21007624

Voice Warning
Warns of hazard by announcing "Fire, Fire" or "Warning, Carbon Monoxide."

Peak Level Memory
Alerts user when the unit has detected CO concentrations of 100 PPM or higher.

Smart Hush
Silences the unit during nuisance alarm situations. (Smoke must be present before hush is activated.)

Two LEDs
- Red: Alarm mode.
- Green: Indicates that AC power is present.

Front-Load Battery Door

Adjustable Mounting Bracket
Allows for easy installation and alignment.

DIRECT PLUG-IN GAS/CO COMBO ALARM

Alarm features a digital readout and installs into any AC wall outlet via direct-plug or with its hide-a-way 6' power cord. It detects natural gas (methane) and propane, in addition to carbon monoxide. It also has a 9V battery backup in case the power goes out. UL listed. Five-year warranty.

Part No	Description
9000113	AC/DC Combo Wall Unit w/ 9V Battery Backup
21025830K	Kidde 9V Batteries, 2/Pkg

9000113

SMOKE/CO COMBO ALARMS – IONIZATION

Including a voice warning system that announces "Fire, Carbon Monoxide, Low Battery, or **Smart Hush**™ activation," these technologically advanced units are easy to install and suitable for all living areas. Units use ionization technology for excellent fast-flaming fire detection. Five-year warranty.

Part No	Description
9000102	DC Voice Alert Smoke/CO Unit, 3AA Alkaline

21010407

WORRY-FREE AC/DC SMOKE ALARM – IONIZATION

Featuring a sealed lithium battery backup, this hardwired unit offers 10 years of worry-free protection against fire. It features ionization technology for excellent fast-flaming fire detection as well as two LED indicators (red for alarm mode and green when AC power is present). It can also be interconnected with up to 24 **Kidde** devices (of which 18 can be initiating), including smoke, CO, and heat alarms. 120 VAC. Ten-year warranty.

Part No	Description
21010407*	AC/DC Smoke Unit w/ Sealed Lithium Backup

**Cannot ship to AK, HI, PR, or Catalina*

Kidde

DID YOU KNOW?

- **In 2013, 1,240,000 fires were reported, resulting in 3,240 civilian deaths and $11.5 billion in property damage.**
- **No Smoke Alarms were present in more than ⅓ of home fire deaths.**

Marty Ahrens. *Smoke Alarms in U.S. Home Fires, NFPA.* http://www.nfpa.org/news-and-research/fire-statistics-and-reports/fire-statistics/fire-safety-equipment/smoke-alarms-in-us-home-fires. 2015.

0919

WIRELESS SMOKE ALARMS – IONIZATION

Wireless units make it easy to install an interconnected smoke alarm system throughout a home or business without wiring—when one alarm sounds, they all sound. Alarms use ionization technology for excellent fast-flaming detection. Ten-year warranty.

Part No	Description
0919	DC Smoke Unit, 3AA Alkaline
1279	AC/DC Smoke Unit w/ 9V Battery Backup
21025831K	Kidde AA Batteries, 4/Pkg
21025830K	Kidde 9V Batteries, 2/Pkg

Batteries Included w/ All "DC & AC/DC" Units

INTERCONNECTABLE SMOKE ALARMS – IONIZATION

Operating as a single unit or interconnected (with up to 24 **Kidde** devices on one wiring system, of which 18 can be initiating), these units use ionization technology for excellent fast-flaming fire detection. Includes 9V battery backup for power outages. Ten-year warranty.

Part No	Description
21006376	AC/DC Smoke Unit, Front-Loading Battery Door, Smart Hush, Silent Hush, Alarm Memory
21006378	AC/DC Smoke Unit, Smart Button, Smart Hush, Alarm Memory
21006379	AC/DC Smoke Unit, Exit Light, Smart Hush, Silent Hush, Alarm Memory
21007582	AC/DC Smoke Unit, Front Loading Battery Door, Smart Hush, Silent Hush, Alarm Memory, 360° Mounting Plate
21025830K	Kidde 9V Batteries, 2/Pkg

21006376

21006379

DID YOU KNOW? Smoke alarms save lives. If there is a fire in your home, smoke spreads fast and you need smoke alarms to give you time to get out. Having a working smoke alarm cuts the chances of dying in a reported fire in half. Almost two-thirds of home fire deaths resulted from fires in homes with no smoke alarms or no working smoke alarms.

1) Install smoke alarms inside and outside each bedroom and sleeping area. Install alarms on every level of the home. Install alarms in the basement.

2) It is best to use interconnected smoke alarms. When one smoke alarm sounds they all sound.

3) Test all smoke alarms at least once a month. Press the test button to be sure the alarm is working.

4) Replace all smoke alarms when they are 10 years old.

NFPA. *Smoke Alarms at Home.* http://www.nfpa.org/education. 2015.

DC SMOKE ALARMS – IONIZATION

Battery operated (there's no wiring required), these units offer continuous protection—even during a power outage. Alarms use ionization technology for excellent fast-flaming fire detection. UL listed.

Part No	Description
0914	Fire Sentry Smoke Unit w/o Plate, 9V Alkaline, 4", 3-Year Warranty
0914E	Fire Sentry Smoke Unit w/ Plate, 9V Alkaline, 4", 3-Year Warranty

0914E

SEALED BATTERY DC SMOKE ALARM – IONIZATION

Unit features a 10-year sealed lithium battery and automatically activates when attached to its mounting bracket. It also comes standard with an alarm memory, **Smart Hush**, and end-of-life warning. Alarm uses ionization technology for excellent fast-flaming fire detection. UL listed. Ten-year warranty.

Part No	Description
9000136*	DC Smoke Unit, Sealed Lithium

**Cannot ship to AK, HI, PR, or Catalina*

9000136

Batteries Included w/ All "DC & AC/DC" Units

21007547

RECREATIONAL VEHICLE DC SMOKE ALARM – IONIZATION

Designed specifically for use in motor homes and RVs, this 5" alarm includes a **Smart Hush** and test button, tamper-resistant locking pin, and twist-off mounting. Unit uses ionization technology for excellent fast-flaming fire detection. RV listed. Ten-year warranty.

Part No	Description
21007547	RV DC Smoke Unit, 9V Alkaline
21025830K	Kidde 9V Batteries, 2/Pkg

21007581

FIREX® I4618 AC/DC SMOKE ALARM – IONIZATION

Interconnectable (with up to 24 devices, of which 18 can be initiating, including smoke, CO, strobe light, and heat alarms), this unit uses ionization technology for excellent fast-flaming fire detection. It also has a **Smart Hush**™ button, front-loading battery door, and alarm memory indicator. Five-year warranty.

Part No	Description
21007581	Firex AC/DC Smoke Unit w/ 9V Battery Backup
21025830K	Kidde 9V Batteries, 2/Pkg

442007

DUAL SENSOR SMOKE ALARMS

Featuring both ionization and photoelectric sensing technology, these units also include flashing LEDs to signal they are functioning properly. Other standard features include a low-battery warning and a loud 85 dB alarm. UL listed. Ten-year warranty.

Part No	Description
21007915	AC/DC Combo Sensor Smoke Unit w/ 9V Battery Backup
442007	DC Combo Sensor Smoke Unit, 9V Alkaline
21025830K	Kidde 9V Batteries, 2/Pkg

21006371

SMOKE ALARMS – PHOTOELECTRIC

Alarms come with a low-battery indicator and use photoelectric technology for quick detection of slow smoldering fires. Ten-year warranty.

Part No	Description
21006371	AC/DC Quick-Connect Smoke Unit w/ 9V Battery Backup
PE9E	DC Tamper-Resistant Smoke Unit, 9V Alkaline
21025830K	Kidde 9V Batteries, 2/Pkg

21009942

ULTRA-SENSITIVE CO MONITOR

Alarm provides audible and visual notification of CO levels below 30 PPM—even during power outages. Plus it shows continuous digital readings as low as 10 PPM and updates them every 15 seconds. Ten-year warranty.

Part No	Description
21009942	DC Ultra-Sensitive Smoke Unit, 3AA Alkaline
21025831K	Kidde AA Batteries, 4/Pkg

9000278

PLUG-IN AC/DC CO ALARM WITH DIGITAL DISPLAY

Alarm provides continuous monitoring of CO levels—even during power outages—and shows CO levels recorded since its last reset. It also includes a low-battery hush, event memory, and battery pull tab for fast and easy setup. And it remains in a vertical position, regardless of the electrical socket orientation. Ten-year warranty.

Part No	Description
9000278	AC/DC CO Unit w/ Display w/ (2)AA Battery Backup
21025831K	Kidde AA Batteries, 4/Pkg

Batteries Included w/ All "DC & AC/DC" Units

WORRY-FREE DC CO ALARMS

Units provide continuous protection against elevated levels of carbon monoxide and feature 10-year sealed lithium batteries for maintenance-free operation. They also contain sensors that sound 85 dB alarms when dangerous levels of CO are detected. And they're self-activating with end-of-life signals that chirp when they need replacing.

Part No	Description
21010047*	DC CO Unit w/ Display, 10-Year Lithium
21010045*	DC CO Unit, 10-Year Lithium

** Cannot ship to AK, HI, PR, or Catalina*

21010047

9CO5-LP DC CO ALARM

Unit provides continuous monitoring of CO levels—even during power outages—and includes multiple mounting options: wall or table top. Ten-year warranty.

Part No	Description
9CO5	DC CO Unit, 2AA Alkaline
21025831K	Kidde AA Batteries, 4/Pkg

9CO5

9000146-LP DC CO ALARM

Monitoring CO levels constantly—even during power outages—this alarm's digital display feature allows for easy viewing of carbon monoxide levels from 30-999 PPM (parts per million). It will also detect and store CO levels as low as 11 PPM and up to 999 PPM with its peak level memory display. Alarm includes a slide-out door for immediate access to the batteries and a safety feature that prevents closure when batteries are missing. Ten-year warranty.

Part No	Description
9000146	DC CO Unit w/ Display, 3AA Alkaline
21025831K	Kidde AA Batteries, 4/Pkg

9000146

WORRY-FREE DIRECT PLUG-IN AC/DC CO ALARM

Offering continuous protection against elevated levels of carbon monoxide, this unit features a 10-year sealed lithium battery for maintenance-free operation. It also contains a sensor that sounds an 85 dB alarm when dangerous levels of CO are detected. And it's self-activating, with end-of-life signals that chirp when it needs replacing. It has rotating AC blades, too, to keep it vertical when plugged in, regardless off electrical socket orientation.

Part No	Description
9000280*	AC/DC Wall Unit w/ Display, 10-Year Lithium

** Cannot ship to AK, HI, PR, or Catalina*

9000280

DIRECT PLUG-IN AC/DC CO ALARMS

Providing reliable operation, with plug-in simplicity, these alarms offer protection against dangerous levels of carbon monoxide. Each alarm comes with a battery backup, while **9000076** come with digital displays for easy viewing of CO levels. UL listed.

Part No	Description
21025759	AC/DC Tamper-Resistant CO Wall Unit w/ (2) AA Battery Backup, 10-Year Warranty
9000076	AC/DC CO Wall Unit w/ Display w/ 9V Battery Backup, 5-Year Warranty

9000076

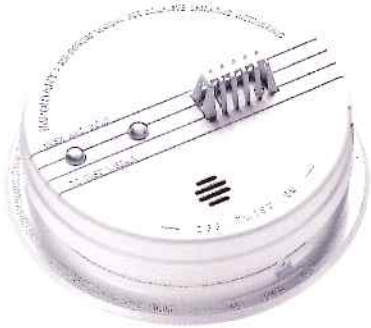

21006406

WIRE-IN AC/DC CO ALARM

Unit helps warn of dangerous carbon monoxide levels and is interconnectable with other **Kidde** devices, such as smoke alarms and heat detectors. Its 9V battery back-up also provides continuous monitoring of carbon monoxide levels. Alarm includes a Smart Interconnect system, which enables the unit to alarm in a carbon monoxide pattern and sound a different pattern when interconnected to a **Kidde** smoke alarm that is in alarm mode. Five-year warranty.

Part No	Description
21006406	AC/DC CO Unit w/ 9V Battery Backup
21025830K	Kidde 9V Batteries, 2/Pkg

HD135F

AC/DC HEAT DETECTOR WITH THERMAL SENSORS

Unit responds to temperature rather than smoke and alarms if temperatures rise above 135°F. It also interconnects with up to 24 devices. 120 VAC. UL listed. Five-year warranty.

Part No	Description
HD135F	AC/DC Heat Detector w/ 9V Battery Backup
21025830K	Kidde 9V Batteries, 2/Pkg

SL177I

DUAL MODE AC LED STROBE LIGHT

Ideal for the hearing impaired, this unit provides a bright LED signal when used in conjunction with a smoke, heat, or carbon monoxide alarm. It includes a tamper-resistant pin to help deter theft too. 120 VAC. Ten-year warranty.

Part No	Description
SL177I	AC Smoke/CO Strobe Unit

9000149

ALARM ACCESSORIES

Part No	Description
SM120X	Relay Module (For Smoke Alarm)
CO120X	Relay Module (For CO Alarm)

Batteries Included w/ All "DC & AC/DC" Units

SMOKE SABRE™ SMOKE DETECTOR TESTER

Tests smoke detectors quickly and easily and uses safe silicone-free "smoke" to eliminate the risk of harmful residue. It also has more tests per can with the lowest cost per test. 3 oz aerosol.

Part No	Description
SMOKESABREBR	Smoke Tester

SMOKESABREBR

FIRETECH™ CANNED SMOKE

Ideal for checking the functionality of smoke alarms in the widest possible range. It offers efficient testing in a simple-to-use format—hand-held or with use of a dispenser. Plus it provides more tests per can with fast detector activation. It's also silicone-free with no CFCs and uses low GWP propellant. UL/ULC listed. 2.6 oz aerosol.

Part No	Description
FTS2BR	Canned Smoke

FTS2BR

SMOKE DETECTOR TESTER

Environmentally friendly, this non-toxic tester works great on both ionization and photoelectric smoke alarms. 2.5 oz aerosol.

Part No	Description
25SBR	Detector Tester

25SBR

CLEAN JET 100 CANNED AIR

A portable source of ultra-clean gas, this aerosol offers precision removal of dirt, dust, lint, and other particulates. It's non-flammable, too, delivering a blast of air up to 100 psi at 68°F. It's also guaranteed to leave behind no residue. 10 oz aerosol. 12/Case.

104EE	Exit Sign, AC (Only)
105EE	Exit Sign w/ Battery Backup

148EE

ALL-WEATHER EMERGENCY LIGHT

Ideal for applications with high-humidity, oily, or corrosive, non-hazardous environments, this light comes with a low-voltage disconnect, test button, LED indicator, and solid-state charger. 120/227 VAC. 8⅝"L x 12⅞"H x 6"W. Five-year warranty. Gray.

Part No	Description
148EE	Emergency Light

137EE

136EE

COMBINATION RED EXIT/LIGHTING UNITS

Meeting both exit and emergency lighting needs, these economical units are compact and low profile and come in a neutral finish. They feature injection-molded, flame-resistant, high-impact thermoplastic housings as well as solid-state chargers. Other features include universal mounting, push-to-test switches, low-voltage disconnects, and LED indicators. Pop-out chevrons can be easily replaced if desired too. Universal transformer for 120/277 VAC operation. 23"L x 11"H x 2¾"W. Five-year warranty on LED lights.

LIGHTING PRODUCTS & BATTERIES

ANSI/NEMA FL 1

Standards Help You Compare Flashlight Performance

Until now, there have been no standardized tests or uniform rating system for flashlights. So there's been no way for consumers to make an informed choice. You couldn't tell how a light would perform until you bought it and tried it for yourself.

That was yesterday, today the ANSI/NEMA FL 1 Standards are here. Developed with the guidance of the American National Standards Institute, the National Electrical Manufacturers Association and representatives from 14 companies in the portable lighting industry, these standards help you rate and compare the most important features of personal lighting tools.

Below is the list of features that are covered by the ANSI/NEMA FL 1 Standards, along with the icon that represents that feature. Participating flashlight companies will now show these icons on their packaging with a rating that tells you how the light performed. This rating system is particularly helpful in comparing one light to another. You can compare brightness, beam distance, impact resistance, runtime, water resistance, and more.

It's important to know that adherence to these standards and reporting results is strictly voluntary, and that each flashlight company that participates in this rating system conducts its own tests, adhering to very specific guidelines.

STANDARD SYMBOLS

Peak Beam Intensity – The maximum luminous intensity typically along the central axis of a cone of light. This measures the brightest part of the beam. The value is reported in candela.

Beam Distance – The distance from the device at which the light beam is 0.25 lux. Results are reported in meters.

Impact Resistance – The degree to which a portable light resists damage when dropped on a solid surface. Dropped samples must not exhibit any cracks or breaks, and must remain fully functional in order to pass the Impact Resistance test.

Run Time – The duration of time from the initial light output value (that's 30 seconds after the light is turned on with fresh batteries) until the light output drops to 10% of the initial value.

Light Output – A measurement of the total quantity of emitted overall light energy. The value is reported in lumens.

Water Resistance – There are three tests that measure water resistance:
- Resistance to Temporary Immersion in Water.
- Resistance to Continuous Immersion in Water.
- Resistance to Splashing Water.

Streamlight. *Illumination Tools Full Line Catalog.* (2009) 12-15.

DIFFERENT LIGHTS FOR DIFFERENT HAZARD LOCATIONS

The National Electric Code (NEC) defines hazardous locations by "class" and "division." There are three classes:

Class I – Locations are made hazardous by the presence of flammable gases, liquids, or vapors.

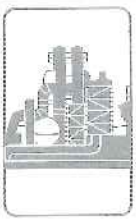

Class II – Locations are hazardous because combustible dusts are present.

Class III – Locations contain easily ignitable fibers or flyings.

The "Division" designation refers to the likelihood that ignitable concentrations of flammable materials are present. There are two divisions:

Division 1 – Designates an environment where ignitable concentrations of flammable gases, liquids, vapors, or dusts can exist some of the time or all of the time under normal operating conditions or where easily ignitable fibers and flyings are manufactured, handled, or used.

Division 2 – Locations are where ignitable concentrations are not likely to exist under normal operating conditions or where Class 3 materials are stored or handled.

STYLUS® & STYLUS REACH® LED PENLIGHTS

Penlights feature 100,000-hour LEDs and come standard with a powerful Momentary-Blink/Constant-On switch. Plus their knurled anodized-aluminum bodies ensure rugged corrosion-resistant operation. There's even a pocket clip to help keep them close, and they're IPX4 water resistant to 2 m. The **Stylus Reach** light has the same great features as the **Stylus** light but with a flexible cable extension, so it can illuminate those hard-to-reach areas. Uses three AAAA alkaline batteries (included). Blister packs.

Part No	Description
65024SL	Stylus Penlight, 6⅜" x ⅜", Gold
65018SL	Stylus Penlight, 6⅜" x ⅜", Black
65058SL	Stylus Penlight (UL listed), 6⅜" x ⅜", Class I, Div 1, Black

PROTAC® 1L-1AA DUAL FUEL TACTICAL FLASHLIGHT

Accepting a single lithium or alkaline battery, this light offers the ultimate in power-source flexibility. Plus its one-handed operation with Momentary, Variable Intensity, and Strobe modes works seamlessly with its **Ten-Tap®** programmable switch that allows users to select High/Strobe/Low, High, and Low/High programs. It's tough, too, thanks to anodized aluminum construction with impact-resistant, borofloat glass lens. Other features include **C4®** LED technology, a rubber push-button tail switch, a removable pocket clip, and an anti-roll head. Comes complete with a nylon holster, (1) CR123A lithium battery, and (1) AA alkaline battery. IPX7 waterproof to 1 m for 30 minutes and impact resistant to 2 m. 4¼". Black.

XENON VS. LED

The choice of LED or Xenon largely depends on the application the light will be used for. LEDs can be good for close-in lighting for extended periods of time. Xenons are better for lighting objects at a distance.

DUALIE® CLASS I, II, DIVISION 2 3AA FLASHLIGHTS

STREAMLIGHT.

NEW

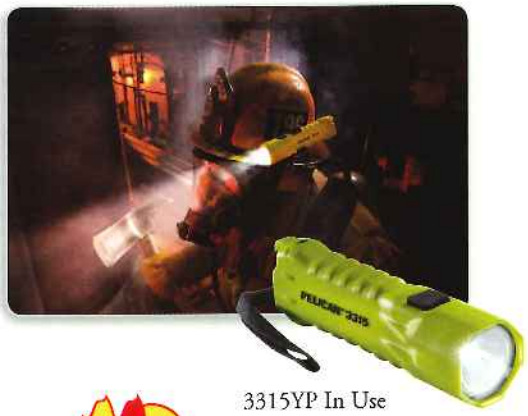

68780SL

Shining light ahead and downward, these lights make it very easy to see where one is going. And featuring two C4® LEDs and three lighting modes (Spot, Flood, and Spot/Flood), they offer a lot of flexibility, not to mention power. They also have dual head switches for easy beam selection and one-handed operation—even with gloves. Plus their non-conductive, corrosion-proof polymer resin bodies and rocky stipple textures add durability with grip, while polycarbonate face caps and side lenses (with scratch-resistant coatings) add toughness. There are even rugged, integrated, snag-free clips and magnets for hands-free use (**68780SL** & **68782SL**). IPX7 waterproof to 1 m for 30 minutes and impact resistant to 2 m. Powered by three AA alkaline batteries. 7½" x 1½". Yellow.

9410LYP

LED 9410L RECHARGEABLE LANTERN

Weighing just 3 lb, this lightweight lantern packs a lot of light, thanks to four LEDs and three lighting modes—High, Low, and Flashing. It's also equipped with a 120° rotating head, battery status indicator, and shoulder strap. NFPA 1901 approved and IPX4 water resistant. Uses 7.4V, 6.6 Ah lithium-ion batteries (included). 8¾". Yellow.

Part No	Description

WEATHEREADY® 360° LED AREA LIGHT

Lantern's bright white LEDs provide room-filling light with a three-mode switch for High, Low, and Nightlight. It's also waterproof to 1 m (for 30 minutes), and it floats. There's a carrying handle and hanging clip, too, plus it runs on either three AA **Energizer® Max®** batteries (included) or three D batteries (not included). IPX4 water resistant and impact resistant to 7 m. 7¼" x 4⅜6". Red.

44931SL

THE SIEGE® ALKALINE LANTERNS

Thanks to removable, glare-reducing polycarbonate covers, these lanterns provide soft, even 360° light distribution. Comfortable to use in close quarters, their non-impairing Night-Vision mode also extends run time for emergency preparedness. They come standard with D-rings that are spring-loaded to stow against the lights when not in use. Other features include ergonomic handles, designed to lock in an upright or stowed position, and hooks for hanging. Lanterns float, are IPX7 waterproof to 1 m, and impact resistant to 2 m. Batteries sold separately. Coyote.

LED LANTERN/FLASHLIGHT CLAMPLIGHT

Thanks to a unique clamp design, this lantern attaches to a variety of things—branches, tables, tents, backpacks, and more. It also has an articulated head to put light where it's needed. And it features two 100,00-hour **Cree®** LEDs for better optics and the ultimate in performance. There are four modes of operation, too—High, Low, Strobe (Lantern) and Flashlight mode. Other features include an IC chip for more consistent light output, a battery power indicator, and a clamp that converts to non-skid feet. A rubberized coating lends grip and durability, too, while polycarbonate construction adds toughness. Uses three AA batteries (not included). IPX4 water resistant. Black.

LED BACKPACK LANTERN/FLASHLIGHT CLAMPLIGHT

Versatile and compact, this light features a carabiner for easy attachment to packs, belts, and more. It also comes with a clamp for hands-free use on tables, branches, and more. Its head articulates, too, putting light where it's needed. And it uses two separate groups of 100,000-hour LEDs—eight Kong LEDs (lantern) and one **Cree®** LED (flashlight)—for better optics and the ultimate in performance. There are four modes of operation, too—High, Low, Strobe (Lantern) and Flashlight mode and an IC chip for more consistent light output. A rubberized coating lends grip and durability, too, while high-performance plastic construction adds toughness. Uses three AAA batteries (not included). IPX4 water resistant. Black.

PORTABLE SCENE LIGHT RECHARGEABLE LANTERN

With its narrow footprint and 72" extension pole, this light goes almost anywhere with 5300 lumens of bright white light. And it's tough, thanks to its high-impact thermoplastic housing and O-ring sealed, unbreakable polycarbonate lens that also has a scratch-resistant coating. It's powerful, too, thanks to six **C4®** LEDs and wide-pattern reflectors that produce a uniform flood pattern (with two selectable beam widths and three light output intensities). It also has selectable diffuser settings for two beam widths that work with all three modes—High, Medium, and Low. Other standard features include optimum peripheral illumination for scene lighting, 90° swiveling head, and a switch toggle for different power options (internal or external). IP67 rated, dust-tight, and waterproof to 1 m. AC charger and 12V, 7.2 Ah sealed lead acid battery included. 22"L x 11"H x 6½"W. Yellow/Black.

RECHARGEABLE BATTERIES: A BETTER CHOICE?

Benefits of Rechargeable Batteries	Disadvantages of Rechargeable Batteries
• **Save Money:** When used properly, rechargeable batteries can be used hundreds or even thousands of times! They do cost more initially, but can definitely pay for themselves over time.	• **Recharging:** Obviously, rechargeable batteries will need to be recharged. If you're used to just grabbing single use batteries and popping them in, recharging can initially seem like a bit of a hassle. Having backups helps ensure you won't be left powerless waiting for your batteries to juice up.
• **Conserve Resources:** Because rechargeables can be used over and over, fewer batteries need to be manufactured (and transported) than with single use varieties. In fact, rechargeable batteries consume up to 23 times less non-renewable natural resources than disposable batteries.	• **Self-Discharge:** Some self-discharge can be expected, mea ing you may need to charge batteries before their initial use and after storing for any length of time. Opt for pre-charged versions and again, be sure to keep those backups charged.
• **Protect the Environment:** Most people don't realize the extent of single use batteries' environmental impacts. Heavy metals, corrosive materials, and other nasty chemicals combined with (all-too-common) improper di posal spells bad news for the environment. But rechargeables have 28 times less impact on global warming, 30 times less impact on air pollution, 9 times less impact on air acidification, and 12 times less impact on water pollution!	
• **Performance:** Many of today's rechargeables actually last longer on a single charge than their disposable counterparts, especially in high-drain devices.	

THE WHY TO BUY

DID YOU KNOW?

THE DO'S AND DON'TS FOR CARE AND HANDLING BATTERIES

Do's	Don'ts
Read the instructions on your device before installing batteries. Make sure to insert the batteries properly, following the symbols showing you the correct way to position the positive (+) and negative (-) ends of the batteries.	Dispose of batteries in a fire — they may rupture or leak.
Keep battery contact surfaces clean by gently rubbing with a clean pencil eraser or cloth.	Carry loose batteries in a pocket or purse with metal objects like coins, paper clips, etc. This will short-circuit the battery, generating high heat.
Replace batteries with the size and type specified in the operating instructions. Remove all used batteries from the device at the same time, then replace them with new batteries of the same size and type.	Recharge a battery unless it is specifically marked "rechargeable." Attempting to recharge a normal battery could result in rupture or leakage.
Store batteries in a cool, dry place at normal room temperature. Remove batteries from devices that will be stored for extended periods.	Use rechargeable alkaline batteries in nickel metal hydride battery chargers.
	Put batteries or battery-powered devices in hot places — elevated temperatures increase the self-discharge of batteries.
	Mix old and new batteries, or mix different types or makes of batteries. This can cause rupture or leakage, resulting in personal injury or property damage.

CRAFTSMAN® PRY BAR

CRAFTSMAN®

NEW

0094283CI

With its flat head that slips into the smallest cracks and spaces, this bar makes gaining access easy. Made of chrome-vanadium steel, it will also hold its own against tough materials—even steel. And its 16" length provides the leverage needed for extra stubborn situations, while its ½" Dia makes it easy to grip. A black oxide finish protects the metal from wear and rust too.

Part No	Description
0094283CI	Pry Bar

CRAFTSMAN® 3-PIECE CURVED PRY BAR SET

Bars are made of 1¼" hardened, tempered high carbon steel. They come with 23° bent claws, polypropylene grips, and a soft bag and molded case for storage.

BACK DOWN SNOW REPELLENT

215501QC

NEW

Specially formulated, this wax-based solution keeps snow, slush, and ice from sticking to snow-removal equipment, snowmobiles, and more. It can also be used on the underside of lawn mowers and other lawn-maintenance equipment to prevent buildup of grass clippings and dirt, while it helps blades stay sharper longer. 11 oz aerosol. 12/Case.

Part No	Description
● 215501QC	Back Down

THE BENEFITS OF PREPPING WITH LIQUEFIRE

(Based on contractor servicing a local oil field campus with LIQUEFIRE Anti-Icing Agent as a pre-storm treatment.)

Findings:

- Total man-hours for snow removal decreased from 288 man-hours to just 18.
- No special certification needed or training to apply.
- Liquid easily applied to metal stairs, loading docks, and cement.
- Additional savings in hours to hire part-time workers, interview, and drug test.
- Effective without additional ice melt for light snowfalls.

Cost Analysis:

- Pre-Liquefire Labor: Contractor hired 24 to 36 hourly workers to shovel snow and apply ice melt after a winter storm. Each worker was paid for an 8-hour day.

Difference:

- Liquefire decreased labor from 288 man hours to 18 man hours. Additionally, savings were realized in human resources for sourcing workers, interviewing, drug testing and paperwork.
- This anti-Icing Agent can go where granular ice melt products dare not!

QuestSpecialty. *Liquefire Anti-Icing Agent Case Study.* 2015.

WONDER ACOUSTICAL CEILING TILE RESTORER

A unique clay-based restoring system for acoustic ceiling tiles, this product permanently bonds to the surface being restored without compromising acoustical sound absorption or fire retardant value. It also covers water stains, smoke and fire damage, graffiti, paint, ballpoint ink, permanent marker and rusting nail heads. And it leaves a clean, white coating and works as a non-bleeding primer/sealer for sign painters, a non-grain-raising primer for new wood, a base coat for wallpaper or vinyl wall coverings, and as a base coat for galvanized metal. 12 oz aerosol. 12/Case.

MULTI-PURPOSE OIL

A household name in lubrication, **3-In-One®** oil lubricates, cleans, and protects. Plus its easy-to-use drip spout delivers precise lubrication, and there's a fill level indicator to show when it's getting low. It can be used on tools, bicycles, wheels, fans, nuts and bolts—most any moving parts. 3 oz. 24/Case.

Part No	Description
10135WD	3-In-One Oil

10135WD

GARAGE DOOR LUBE

At home or in a commercial setting, this lubricating formula stops squeaks and sticking. Plus it's waterproof and helps prevent rust and corrosion in garage door mechanisms. 11 oz aerosol. 6/Pkg.

Part No	Description
100581WD	3-In-One Lube

100581WD

3-IN-ONE®

MR. MECHANIC LUBRICANT

Made from light mineral oil with a corrosion preventative in a petroleum distillate base, this general-purpose lubricant is an excellent choice for machine shops, assembly plants, repair shops, and more. USDA authorized. 12 oz aerosol. 12/Case. **NOTE:** Flammable.

Part No	Description
534001QC	Mr. Mechanic

QuestSpecialty Corporation

534001QC

SILI LUBE SILICONE SPRAY

A non-flammable, waterproof, and rustproof multi-purpose spray, it uses high-viscosity silicone for long-lasting lubrication. And it's ideal for most anything that moves—door hinges, chains, pulleys, gears, locks, and so much more. Non-conductive to 28,000 volts and remains stable up to 400°F. 15 oz aerosol. 12/Case.

Part No	Description
537001QC	Sili Lube

537001QC

S1 SILICONE SPRAY

A non-staining, non-corrosive, and quick-drying silicone spray, it contains a friction reducer that stops sticking and binding. It also leaves a protective coating, making it ideal for equipment with exposed lubricated parts in food areas. NSF listed H1. 11 oz aerosol. 12/Case.

Part No	Description
SW292SY	S1

SW292SY

SPECIALIST™ WATER RESISTANT SILICONE LUBRICANT

Lubricating, waterproofing, and protecting metal and non-metal surfaces, this solution dries fast, leaving a clear non-staining film that doesn't attract dirt. It also has an effective temperature range of -100°F to 500°F, making it ideal for cables, pulleys, guide rails, valves, linkages, hinges, locks, and more. It's 50-state VOC compliant too. 11 oz aerosol. 6/Case.

Part No	Description
300011WD	Specialist Silicone

300011WD

SLIDE OUT DRY SILICONE SPRAY – FOOD GRADE

Made specifically for lubricating equipment in the packaging and processing industry, this food-grade spray leaves a non-staining, dry silicone film that will not melt, freeze, gum, or become rancid. It's also heat stable (-450°F to 450°F) and has many uses, including freeing up sticking metal, wood, rubber, and plastic. Use it to waterproof canvas, rubber, leather, and chrome surfaces too. Safe for all plastics and contains no methylene chloride. 11.5 oz aerosol. 12/Case.

Part No	Description
538001QC	Slide Out

538001QC

NEW

540001QC

PURITY FOOD GRADE LUBRICANT & PROTECTANT

A lubricant made up of USP liquid petrolatum and propellant, it provides a sanitary means of lubricant dairy and food processing equipment. Complies with FDA regulations, CFR Title 21, paragraphs 172.878 and 173.3620. Non-toxic, odorless, and tasteless, and it contains no silicone. NSF listed H1.

Part No	Description
● 540001QC	Purity

QuestSpecialty Corporation

NEW

6662001QC

588001QC

SURROUND COLD PIPE INSULATION SPRAY

Designed for cold water pipes, refrigeration lines, condenser lines, and other like items, this insulation spray prevents sweating and dripping. It dries to a hard white coating that's non-flammable. And its durable stipple-looking surface can be painted or primed too. 18 oz aerosol. 12/Case.

Part No	Description
588001QC	Surround

SHINY NICKEL ICE MACHINE CLEANER

A non-foaming, non-fuming cleaner, it quickly removes scale from stainless steel and nickel-plated steel. It contains special inhibitors to minimize corrosion while effectively cleaning scale from all metal surfaces. It's USDA approved for use in federally inspected meat and poultry plants too.

Part No	Description
6662001QC	Shiny Nickel, 8 oz, 24/Case
● 6662415QC	Shiny Nickel, 1 gal, 4/Case

GEAR LUBE EF OPEN GEAR LUBRICANT

Highly viscous, this lubricant keeps machinery running smoothly and can be used on gears, chains, cables, industrial machinery, and construction equipment. Effective in temperatures up to 175°F, it also repels water, protecting exposed surfaces against rust and corrosion. It stays put, too, and has excellent stretching abilities—all without using chlorinated or fluorinated solvents. 12 oz aerosol. 12/Case.

Part No	Description
542001QC	Gear Lube

542001QC

MOLI-GUARD DRY LUBRICANT SPRAY

Using molybdenum disulfide, this dry-film lubricant withstands high-pressure and temperatures of -20°F to 1000°F. It displaces moisture to prevent rust and corrosion, too, and reduces metal-to-metal contact, extending the life of equipment. An excellent product for construction jobs, machine shops, repair services, and more. 12 oz aerosol. 12/Case.

Part No	Description
544001QC	Moli-Guard

544001QC

T1 TFE DRY COATING LUBRICANT & RELEASE AGENT

A non-oily, non-staining woodworker's lubricant, it remains dry during use. Extremely slick, too, it will not melt below 500°F or attract or hold dust or dirt. Nor will it become gummy. It also repels oil and water, reduces friction, and inhibits resin buildup, prolonging tool life. 12 oz. aerosol. 12/Case.

Part No	Description
SW295SY	T1

SW295SY

SURRENDER ANTI-SEIZE – BRUSH TOP

Versatile product not only unsticks parts, it withstands temperature extremes (-30°F to 2200°F). It's also non-melting and won't dissolve in water, making it ideal as an anti-friction bearing and slide lubricant. It's great in corrosive environments too. 1 lb. 12/Case.

Part No	Description
L63916QC	Surrender

L63916QC

NUCHAIN CHAIN & CABLE LUBRICANT WITH MOLY

Adding new life to chain cable and sprockets, this lube penetrates into wire ropes and chains and never builds up. It also reduces whip, noise, and vibration when used on a regular basis. 12.5 oz aerosol. 12/Case.

Part No	Description
576001QC	Nuchain

576001QC

M1 MOLY CHAIN & CABLE LUBRICANT

Cable lubricant provides superior penetrating action on rollers, pins, links, and bushings in chains. And when it's applied to wire ropes and cables, the Moly and other additives plate the strands to provide excellent anti-wear properties and superior rust protection. 15 oz aerosol. 12/Case.

Part No	Description
SW291SY	M1

SW291SY

LOOSE SCREW LUBRICANT & PENETRANT

Non-flammable, this 4-in-1 formula penetrates, lubricates, displaces moisture, and resists corrosion. Fortified with PTFE, it won't harm the environment and conforms to Military Specifications MIL-C-23411 for corrosion prevention. It's ideal for use on motors, wire cable, rusted parts, ignition systems, machine parts, door hinges, locks, nuts and bolts, and refrigeration equipment. 20 oz aerosol. 12/Case.

Part No	Description
530001QC*	Loose Screw

** Cannot ship to CA or UT*

530001QC

PIERCE PENETRATING LUBRICANT

Lubricating penetrant loosens up motors, rusted parts, door hinges, locks, and more. It also cleans, lubricates, and helps prevent rust. Non-flammable and non-conductive to 30,000 volts. 16 oz aerosol. 12/Case.

Part No	Description
550001QC*	Pierce

** Cannot ship to CA or UT*

550001QC

QuestSpecialty Corporation

RUST RELEASE FOAMING PENETRANT & CUTTING OIL

A fast-working penetrant that frees sticking or rusting parts and stops squeaks, rust, and corrosion on tools, locks, door hinges, hoists, cranes, gears, and more. It can also be used as a cutting oil during metal working operations to cool and lubricate parts. 16 oz aerosol. 12/Case.

Part No	Description
569001QC	Rust Release

569001QC

SLICK LUBRICANT

Product uses a mixture of molybdenum disulfide to free frozen and rusted parts, while PTFE continues to lubricate long after the application. For use in bottling plants, industrial plants, textile plants, mechanic's shops, and more. 12 oz aerosol. 12/Case.

Part No	Description
574001QC	Slick

574001QC

SPECIALIST™ RUST RELEASE PENETRANT

Penetrating deep into crevices, threads, and seams, this special product uses **Blu Torch™** technology (a proprietary blend of synthetic additives) to break up the rust bonding parts together. And it does so 50% faster than the leading competitor. It also leaves behind a protective coating that helps prevent rust and corrosion from reforming. Plus it is 50-state VOC compliant and safe to use on plastics, rubber, and metal. 11 oz aerosol. 6/Case.

Part No	Description
300004WD	Specialist Rust Release

300004WD

WD-40 SPECIALIST

SPECIALIST™ INDUSTRIAL-STRENGTH DEGREASER

A powerful solvent-based degreaser, this product quickly cleans machinery, engines, and equipment, leaving behind no residue and low fumes. And it features a **Smart Straw** design that sprays two ways—up for precise spray and down for regular spray. It also quickly dissolves grease, oil, dirt, adhesives, and more, thanks to its **PowerSolve** technology. It it's safe for most surfaces too. NSF listed K1. CARB compliant. 15 oz aerosol. 6/Case.

Part No	Description
300280WD	Specialist Degreaser

300280WD

D-GREAZ ORGANIC SOLVENT DEGREASER

A safer and greener way to clean grease and grime from equipment, this formula uses no chlorinated or fluorinated solvents, so it's more environmentally conscious and can be used on most plastics and in areas where toxic products are not appropriate. Aerosol exhibits 48,000-volt dielectric strength too. USDA authorized. 12 oz aerosol. 12/Case.

Part No	Description
500001QC	D-Greaz

500001QC

BIG ORANGE TAR & ASPHALT REMOVER

A natural orange oil solvent, this product quickly cuts through tar, asphalt, gum, ink, crayon, tough soils, paint overspray, and more. And there are no chlorinated solvents, CFC's, or other ozone depleting chemicals. No harmful or unpleasant fumes either. 12 oz aerosol. 12/Case.
NOTE: Will soften some surfaces, including some plastics. Use with care.

Part No	Description
506001QC	Big Orange

506001QC

D3 CITRUS DEGREASER

Degreaser attacks oil, grime, grease, tar, and other oil-based contaminants on hard surfaces. It works on contact and leaves little or no residue too. 15 oz aerosol. Natural citrus base. 12/Case.

Part No	Description
SW286SY	D3

SW286SY

UP AND AWAY FLOATING LIFT STATION CLEANER

Simply powerful, this formula dissolves buildup on lift station walls as well as removes sewer odors and gases caused by the vertical buildup of grease, fat, magnesium soap, and sewage. It's made to use in wet wells, sewage treatment plants, grease traps, storm sewers, and more. 5 gal.

Part No	Description
602004QC	Up and Away

602004QC

QUIKLEEN II SOLVENT CLEANER

Non-flammable and non-conductive, this agent is safe to use on metal parts, electric motors, and electronic sub-assemblies—even while the equipment is operating. Plus it cleans quickly, dries quickly, and leaves no residue behind. It can also displace moisture from electric motors. Citrus scent. 16 oz aerosol. 12/Case.
NOTE: Be sure to test before using on plastics.

Part No	Description
512001QC*	Quikleen

512001QC

**Cannot ship to CA, CT, MA, MD, ME, MI, or NJ*

GREZ-OFF® DEGREASER

Professional-strength, water-based biodegradable formula is bolstered with fast-acting surfactants, so it cuts through grease and grime with ease. 32 oz spray bottle. USDA approved and VOC compliant in all 50 states. 12/Case.

Part No	Description
22732DY	Grez-Off

22732DY

TOUGH GUY SUPER CONCENTRATED DEGREASER, TAR REMOVER

A formulated gel, this product will not run and works without using acids, alkalis, or chlorinated or fluorinated solvents. It easily degreases motors on automobiles, trucks, tractors, lawn mowers, boats, etc. It also emulsifies tar, asphalt, and bitumen- and asphalt-based cements and mono-form roofing compounds used by roofers. Citrus fragrance. 20 oz aerosol. 12/Case.

Part No	Description
523001QC	Tough Guy

523001QC

SPECIALIST™ PROTECTIVE WHITE LITHIUM GREASE

Ideal for metal-to-metal applications that require heavy-duty lubrication and protection from rust and corrosion, this grease sprays on evenly as a liquid and sets dry for a thick protective coating that won't melt, freeze, or run. It also has an effective temperature range of 0°F to 300°F and is 50-state VOC compliant. NSF listed H2. 10 oz aerosol. 6/Case.

Part No	Description
300028WD	Specialist Lithium Grease

300028WD

BODACIOUS NON-MELT GREASE SPRAY

High-pressure, high-temperature (up to 500°F), non-melt red grease sprays on as a liquid, then turns to grease to penetrate and lubricate metal parts. It contains no chlorinated or fluorinated solvents either. USDA Authorized. 12 oz acrosol. 12/Case.

Part No	Description
572001QC*	Bodacious

**Cannot ship to CA*

572001QC

EZ LUBE FOOD GRADE WHITE GREASE

Featuring a high-purity complex, this grease has superior heavy-duty, metal-to-metal characteristics. It's ideal for high-load applications requiring a long grease life. And it resists water and heat with a wide temperature range (-40°F to 550°F). It also offers corrosion protection. NSF listed H1. 16 oz aerosol. 12/Case.

Part No	Description
5770001QC*	EZ Lube

**Cannot ship to CA*

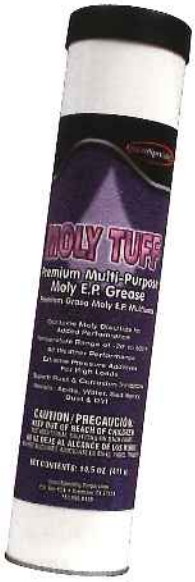

5770001QC

MOLY TUFF PREMIUM MULTI-PURPOSE GREASE

Containing high-viscosity base oil and a calcium sulfonate thickener system, this grease forms a protective film that resists rust and corrosion. It also resists chemical breakdown, water, and oxidation. Plus it has extreme pressure additives that provide resistance to shock. Temperature range: -20°F to 500°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1021710QC	Moly Tuff

L1021710QC

BIG RED SUPER IMPACT NON-MELT E.P. GREASE

A premium grease, it can be used on high- and low-speed ball and roller bearings, couplings, ball joints, and more. Ideal for all kinds of industrial maintenance. Temperature range: 0°F to 600°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1031710QC	Big Red

L1031710QC

MR. GREEN HIGH PERFORMANCE EXTREME CONDITION GREASE

For applications requiring shear, stable high-load-carrying corrosion resistance, this grease forms a protective film that resists chemical breakdown and oxidation. Plus it's waterproof and even resistant to salt water environments. Temperature range: -20°F to 500°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1041710QC	Mr. Green

L1041710QC

L1051710QC

MR. BLUE PREMIUM LITHIUM E.P. GREASE

A multi-use grease, it doesn't dry out after use, remaining pumpable at low temperatures. And it forms a protective film, resisting rust and corrosion as well as chemical breakdown and oxidation. It's waterproof too. Temperature range: 0°F to 350°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1051710QC	Mr. Blue

L1061710QC

BIG GREEN SUPER IMPACT NON-MELT E.P. GREASE

A multi-use grease, it uses a Bentone-based formula that doesn't liquefy at high temperatures. It also remains pumpable at low temperatures, forming a protective film that resists rust and corrosion as well as chemical breakdown and oxidation. It contains extreme pressure additives to resist shock, too, and is waterproof. Temperature range: 0°F to 600°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1061710QC	Big Green

L1071710QC

QuestSpecialty Corporation

MR. JOE AMBER PREMIUM LITHIUM E.P. GREASE

A lithium-complex grease, this product won't dry out after use, remaining pumpable at low temperatures. It forms a protective film that resists rust and corrosion as well as chemical breakdown and oxidation. Waterproof. Temperature range: 0°F to 350°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1071710QC	Mr. Joe

L1081710QC

EZ LUBE FOOD GRADE WHITE GREASE

NSF listed H1, this high-purity multi-purpose grease resists extreme pressure, corrosion, and water washout for long-lasting protection. Temperature range: -40°F to 500°F. 14.5 oz cartridges. 10/Case.

Part No	Description
L1081710QC	EZ Lube

554001QC

DEFENSE EF METAL PARTS PROTECTOR

Transparent amber formula sets to a hard yet flexible coating in just two hours, protecting metal parts—indoors or out. It contains no chlorinated or fluorinated solvents and removes easily with kerosene or mineral spirits. 12.5 oz aerosol. 12/Case.

Part No	Description
554001QC	Defense EF

HD-50 SYNTHETIC CUTTING FLUID

Totally oil free, this fluid combines the lubricity and film strength of oils with the cooling ability and cleanliness of water. It won't rust parts or equipment and can be diluted with up to 30 parts water to form a clear solution. And there are no messy oils to clean up. It also works as a cleaner and is completely biodegradable. 5 gal.

Part No	Description
612004QC	HD-50 Fluid

612004QC

RESTORE RUST CONVERTER & PROTECTIVE COATING

Concentrated and super powerful, this coating stops rust in its tracks—on tools, machines, vehicles, and more. It also oxidizes corrosion and scale to brighten surfaces. Once dry, it leaves behind a clear acrylic coating that lasts for years with or without painting. Temperature range: 0°F to 250°F.
NOTE: Do not store at 32°F or below.

Part No	Description
641016QC	Restore, 1 qt, 12/Case
641415QC	Restore, 1 gal, 4/Case

641016QC

REVIVE RUST CONVERTER SPRAY

A quick and easy way to treat rusty surfaces, this aerosol chemically converts rust to a black coating that stops more rust from forming. The treated surface can then be painted or left as is. 13 oz aerosol. 12/Case.

Part No	Description
596001QC	Revive

596001QC

RATTLER COIL CLEANER

Designed to penetrate coils and dissolve dirt and grime, this alkaline-based cleaner uses a non-foaming, professional-grade formula to tackle the toughest tasks, like grease, lint, dirt, and nicotine. Ideal for evaporators, condensers, and electronic air filters. 1 gal. 4/Case.

Part No	Description
6606415QC	Rattler

6606415QC

QuestSpecialty Corporation

SIDEWINDER FOAMING COOLING COIL CLEANER

Coil cleaner penetrates, removing dirt and matted material quickly—and without rinsing. It works by mixing with the unit's condensation to wash soil away from treated surfaces, leaving them clean and deodorized. Ideal for air conditioners, central cooling systems, and auto air conditioners. 18 oz aerosol. 12/Case.

Part No	Description
539001QC	Sidewinder

539001QC

COBRA EVAPORATOR/CONDENSER COIL & FIN CLEANER

An excellent spray-on product for cleaning air-conditioner coils and fins, it requires no rinsing (if the unit is functioning and producing moisture). It's perfect for use on central cooling systems, air conditioners, and vehicle AC systems.
NOTE: Rinsing is required if unit is removed for repair or isn't producing moisture.

Part No	Description
541001QC	Cobra, 15 oz Aerosol, 12/Case
6601415QC	Cobra, 1 gal, 4/Case

541001QC

PYTHON EVAPORATOR COIL CLEANER & DISINFECTANT

547001QC

Non-abrasive, one-step disinfectant cleaner is specially designed to cut grease and grime without scrubbing. It also kills legionella pneumophila and a wide variety of organisms as well as fungi, mold, and mildew. It's perfect for small air conditioners, commercial air handling equipment, HVAC cooling coils, and refrigeration equipment. EPA Registered for HVAC applications. 18 oz aerosol. 12/Case.

Part No	Description
547001QC	Python

C1 PENETRATING COIL CLEANER

SW287SY

Coil cleaner features a delayed foaming action that allows the non-acid, non-chlorinated formula to attack dirt, grime, soil deposits, and contaminants on evaporators and condenser coils. Its dual quat formula also deodorizes coils and drain pans to eliminate odors. Fresh citrus scent. 19 oz aerosol. 12/Case.

Part No	Description
SW287SY	C1

LAWN & GARDEN SPRAYERS

20000CPN

Offering funnel-top, translucent tanks, these sprayers are easy to fill, clean, and check fluid levels. They're also compatible with common fertilizers, weed killers, and pesticides. They feature in-tank filters, too, for clog-free, steady spraying. And they come standard with 12" wands, 34" reinforced hoses, adjustable nozzles, and ergonomic handles for easy pumping and carrying.

Part No	Description
20000CPN	Sprayer, 1 gal
20002CPN	Sprayer, 2 gal
20003CPN	Sprayer, 3 gal

61800CPN

PROSERIES BACKPACK SPRAYER

Funnel-topped, this translucent tank sprayer is easy to fill, clean, and check fluid levels. Compatible with common fertilizers, weed killers, and pesticides, it has a three-stage filtration system with an in-tank removable/cleanable filter for clog-free, steady spraying. It also has a cushion grip poly shut-off, three different nozzles, and padded shoulder straps. A 20" wand and 48" reinforced hose are standard as well. 4 gal.

Part No	Description
61800CPN	ProSeries Sprayer

IT'S TIME TO GET THE LEAD OUT OF YOUR WORKPLACE.

A 2013 study shows that 100% of freshly laundered shop towels (when tested) contain lead. OSHA warns that lead may build up in biological systems and become a significant health hazard.

Lead was found in the towel samples in amounts that could exceed EPA limits. A worker using just 12 laundered shop towels a day (the number a typical worker uses per day) may be exposed to lead.

The research shows there may be a hidden risk to millions of workers who use laundered shop towels.

NEED TO KNOW REGULATIONS

The following OSHA and EPA regulations protect your employees and the environment;

29 CFR 1910.22(a)(2) - Walking Working Surfaces

- The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

40 CFR 112.7(c)(1)(viii) - General Requirements for Spill Prevention, Control, and Countermeasure Plans

- Sorbent materials are included in the types of prevention systems that must be used for spill containment.

29 CFR 1910.120(j)(1)(vii)

- U.S. Department of Transportation specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur.

DID YOU KNOW?

SLIPS, TRIPS, AND FALLS:

- Are one of the leading causes of unintentional injuries in the U.S., accounting for approximately 8.9 million emergency room visits.
- Account for 15% of all accidental deaths, the second leading cause behind motor vehicles.
- Lead to over 17% of all disabling occupational injuries.
- Could be prevented with the right precautions.

LOWER RISK, MAXIMIZE EFFICENCY WITH ERGONOMICS

Workplace injury is a main concern for employers. Using products specifically designed for certain types of work environments can help lower the risk of injury while maximizing efficiency.

1. Using work height trucks reduces the strain of bending and lifting.
2. Mobile trucks allow for easy transfer to, from, and between workstations.
3. Using these smart, innovative items save time and money. They are designed to accommodate any industry and need.

Akro-Mils. *Ergonomics Solutions from Akro-Mils.* https://www.akro-mils.com/Resources/Guides/ergonomics.pdf. 2015.

THE WHY TO BUY

- **Every 10 lb of lift = 150 lb of back stress**
- **50 lb = Maximum weight to lift under ideal conditions**
- **Optimal work height comfort zone is 24" to 62" off the floor.**

HEAVY-DUTY PLATFORM TRUCK

Ideal for moving large, heavy loads in almost any environment, this truck features an ergonomically designed push handle for improved control and worker safety. Its **Duramold**™ precision-engineered resin and metal-composite structure also offers unsurpassed durability and service life, while molded-in tie-down slots add load security. It has a textured deck, too, to reduce load slippage and a perimeter deck channel to retain small items. Other features include handle retainer clips, two fixed and two swivel casters, and a powder-coated steel handle and frame. 1000 lb capacity. 36" x 24". Black.

Part No	Description
440300BKRM	Heavy-Duty Truck

CONVERTIBLE PLATFORM TRUCK

Featuring a unique, push-button convertible design, this truck quickly transforms a 52" x 24" platform or U-boat truck (1000 lb capacity) into a 44" x 24" heavy-duty two-shelf utility cart (750 lb capacity). It also has slide locking latches to prevent handle removal and a **Duramold**™ precision-engineered resin and metal composite structure. Molded-in tie-down slots offer load security, too, while its textured deck reduces load slippage and a perimeter deck channel retains small items. Other features include handle retainer clips, two fixed and two swivel casters, and a powder-coated steel handle and frame. Black.

SKIN CARE

STOKODERM® PROTECT PURE SKIN DEFENSE CREAM

NEW

UPW100MLSK

Designed for pre-work application, this silicone-free skin defense cream protects against contact with light-to-moderate water and non-water-based contaminants. It's perfume-free and non-greasy, too, and is compatible for use inside latex and nitrile gloves as a second line of defense. It also makes skin easier to clean.

Part No	Description
● UPW100MLSK	Stokoderm Protect, 100 mL Tubes, 12/Case
● UPW1LSK	Stokoderm Protect, 1 L Refills, 6/Case
● PRO1LDSSK	Stokoderm Protect Dispensers, 1 L, White, 15/Case

PROTECT

THE WHY TO BUY

Pre-work skin protection creams help protect the skin against contact with various workplace contaminants, irritants, and working conditions. Pre-work creams help form a protective layer on the skin to prevent the penetration of contaminants into the skin and to make skin easier to clean.

Deb Stoko. *The World's Greatest Occupational Skin Care Range.* (2016). 12.

STOKODERM® ADVANCED SKIN DEFENSE CREAM

SDA100MLSK

Silicone-free, this cream is designed for skin exposed to both water and oil-based, heavily contaminated substances, like carbon black, iron oxide, graphite, petrolatum, oil, and wax. As a pre-work cream, it has natural building agents to provide advanced protection in these situations. 100 mL tubes. 12/Case.
NOTE: Not designed for use under gloves.

Part No	Description
SDA100MLSK	Stokoderm Advanced

TRAVABON® CLASSIC SKIN DEFENSE CREAM

TVC100MLSK

Specially made to suspend dirt and oil, this silicone-free, pre-work cream protects hands against heavy oil-based and mechanical irritants. It also makes cleanup easier when applied before work. 100 mL tubes. 12/Case.
NOTE: Not designed for use under gloves.

29187SK

1-out-of-20 workers will experience work-related skin issues. Every year these work-related skin issues exceed $1 billion in the United States. There are 4 steps you can take for occupational skin care.

1. **Protect** - Use pre-work skin protection creams.
2. **Cleanse** - Use mild cleansers adapted to the type and degree of soiling to avoid additional skin stress.
3. **Sanitize** - Where necessary use the appropriate cleanser to kill germs.
4. **Restore** - Use after work restore creams to avoid dryness.

DID YOU KNOW?

Why Foam Soaps Are Better Than Lotion Soaps

Research shows that foam soaps require 36% less product for an effective hand wash compared with traditional liquid/lotion soap. It also reveals that foam soap reduces:

- Water consumption by up to 45%
- Product consumption and chemical waste
- The energy required to heat washroom water
- Packaging waste

Deb Stoko. *The World's Greatest Occupational Skin Care Range.* (2016). 17.

DERMATITIS

Workers' dry cracked hands and skin aren't just part of the job. They're symptoms of a health condition called occupational contact dermatitis. Skin conditioners can aid in the prevention of contact dermatitis by promoting healthy skin, the body's strongest barrier to infection. Well-conditioned skin retains more moisture and is less likely to react to incidental exposure to irritants.

90-95% of all occupational skin diseases involve a form of contact dermatitis, resulting from the skin's exposure to a hazardous agent. Symptoms can include itching, pain, and dry, flaking skin. Skin conditioners help prevent contact dermatitis by replacing lost oils and moisture, providing a revitalizing effect that keeps skin healthy and smooth.

Stacy Anderson. Environ Health Insights. *Potential Health Effects Associated with Dermal Exposure to Occupational Chemicals.* 2014.

WORKER SAFETY & SECURITY

DID YOU KNOW? The OSHA standard for The Control of Hazardous Energy (Lockout/Tagout), Title 29 Code of Federal Regulations (CFR) Part 1910.147, addresses the practices and procedures necessary to disable machinery or equipment, thereby preventing the release of hazardous energy while employees perform servicing and maintenance activities. The standard outlines measures for controlling hazardous energies—electrical, mechanical, hydraulic, pneumatic, chemical, thermal, and other energy sources. In addition, 29 CFR 1910.333 sets forth requirements to protect employees working on electric circuits and equipment. This section requires workers to use safe work practices, including lockout and tagging procedures. These provisions apply when employees are exposed to electrical hazards while working on, near, or with conductors or systems that use electric energy.

OSHA. *Lockout/Tagout Fact Sheet.* https://www.osha.gov/OshDoc/data_General_Facts/factsheet-lockout-tagout.pdf. 2015.

DID YOU KNOW?

Whether lockout or tagout devices are used, they must be the only devices the employer uses in conjunction with energy-isolating devices to control hazardous energy. The employer must provide these devices and they must be singularly identified and not used for other purposes. In addition, they must have the following characteristics:

- Durable enough to withstand workplace conditions: Tagout devices must not deteriorate or become illegible even when used with corrosive components such as acid or alkali chemicals or in wet environments.
- Standardized according to color, shape, or size: Tagout devices also must be standardized according to print and format. Tags must be legible and understandable by all employees. They must warn employees about the hazards if the machine is energized, and offer employees clear instruction such as: "Do Not Start," "Do Not Open," "Do Not Close," "Do Not Energize," or "Do Not Operate."
- Substantial enough to minimize the likelihood of premature or accidental removal: Employees should be able to remove locks only by using excessive force with special tools such as bolt cutters or other metal-cutting tools. Tag attachments must be non-reusable, self-locking, and non-releasable, with a minimum unlocking strength of 50 pounds.
- Tags must be attachable by hand, and the device for attaching the tag should be a one-piece nylon cable tie or its equivalent so it can withstand all environments and conditions.
- Labeled to identify the specific employees authorized to apply and remove them.

LOCKOUT/TAGOUT

Lockout/tagout standards have become the #1 most cited OSHA regulation for manufacturers. In 2014, OSHA issued 2396 citations and almost $7 million in penalties of its machine guard standard. According to OSHA, workers operating machinery suffer approximately 18,000 amputations, lacerations, crushing injuries, abrasions, and more than 800 deaths per year.

THE WHY TO BUY

Benita Mehta. ISHN. *Violations can cause serious injury.* (2015). 32.

PNEUMATIC LOCKOUT

Lockout prevents connection of pressurized air hoses and is compatible with hose end fittings. It's made of stainless steel for excellent durability and corrosion resistance and fits 3/16"–1¼" OD hoses. 7¾" x 1⅞".

LOCKOUT/TAGOUT

Approximately 10% of all industrial accidents are caused by failure to properly control hazardous energy. Compliance with the lockout/tagout standard prevents an estimated 120 fatalities and 50,000 injuries each year. Workers injured on the job from exposure to hazardous energy lose an average of 24 workdays for recuperation.

KEYSAFE™ ORIGINAL KEY BOXES – PERMANENT

001015K In Use

Boxes hold several keys (up to five) and key cards for access control systems. Keys can be attached to their lids for convenient one-handed operation, plus codes are resettable. Their strongbox design also has a solid track record for unmatched quality and security. Mounts easily with included hardware. 4⅛"H x 2½"W x 2¼"D. Titanium. Reshipper pack.

Part No	Description
001014K	Permanent Key Box w/ Dial
001015K	Permanent Key Box w/ Push Button

KEYSAFE™ ORIGINAL KEY BOX – PORTABLE

001406K In Use

Unit hangs easily on door knobs, fences, railings, or pipes and authorize several people to gain access to property without duplicating and distributing keys. It's tough, too, thanks to its solid-metal construction with protective rubber shell. And it holds up to three keys. 5¾"H x 4⅞6"W x 1¾"D. Black. Reshipper pack.

Part No	Description
001406K	Portable Key Box w/ Push Button

LOCKING STOR-A-KEY KEY BOXES

001844K In Use

Boxes secure keys with a foam insert while a resettable combination that locks keys in to place. They also come with powerful magnets and adhesive metal plates for mounting on different surfaces. An anchor point is standard, too, for use with a strap or cable tie. 3¼"H x 2¼"W x ¾"D. Charcoal.

Part No	Description
001844K	Locking Stor-A-Key, Shelf Pack
001859K	Locking-Stor-A-Key, Reshipper

KEYSAFE™ PRO KEY BOX

001267K

Store access cards, multiple keys, or large keys in this key box. Its patented push-button technology also offers fast access to contents, and it comes with a protective weather cover for outdoor use. 4⅛6"H x 3½"W x 2¾"D. Black. Reshipper pack.

WA0023GYCM In Use

- 35% of total workdays lost are attributed to injury caused by slips and falls. 18% of all industrial accidents are due to slipping and tripping problems in the factory.
- Workers felt up to 50% less fatigued after standing on artificial anti-fatigue mats.
- Using an entrance mat of 15 feet will prevent up to 80% of accumulated dirt from spreading onto your floors.
- Up to 24 pounds can be tracked in by just 1000 people over a 20-day work period.

THE WHY TO BUY

Crown Matting Technologies. *Commerical Matting Systems.* (2015). 3.

CROWN MATTING TECHNOLOGIES

WALK-A-WAY™ MAT

Mat offers slip-resistant loop pile polypropylene top fibers that help keep floors clean by holding in dirt and moisture. Slip-resistant **Thermoflex®** 80 mil vinyl backing also helps hold the mat in place. Great for indoor medium-to-heavy traffic. 3'L x 2'W x 3/16"D. Gray.

Part No	Description
WA0023GYCM	355 Mat

CK0035BKCM In Use

COMFORT-KING™ ANTI-FATIGUE MATS

Featuring **Zedlan™** foam construction, these mats offer extra "bounce", which stimulates muscles and blood flow to reduce fatigue. They're also abrasion, slip, and chemical resistant, making them ideal for light-to-medium-duty dry areas.

Part No	Description
CK0035BKCM	440 Mat, 5'L x 3'W x 3/8"D, Black
CKAM34GYCM	450 Mat, 4'L x 3'W x 3/8"D, Steel Gray

CD0035YBCM In Use

INDUSTRIAL DECK PLATE MAT

Mat saves time and money on floor maintenance, reduces worker fatigue, and cuts down on accidental slips and falls. Its slip-resistant, diamond-patterned surface is made for medium-to-heavy-duty dry areas. Industrial-grade PVC foam backing is also fused to the top surface for added comfort and relief for tired feet and legs. And it resists most common fluids and chemicals. 5'L x 3'W x 3/16"D. Black/Yellow.

Part No	Description
CD0035YBCM	500 Mat

WSCT35BKCM In Use

SAFEWALK-LIGHT™ MAT

Offering anti-fatigue comfort, this mat has drain-through capabilities, making it ideal for medium-to-heavy-duty oily, wet, or dry areas. It's also easy to clean. 5'L x 3'W x ½"D. Black.

Part No	Description
WSCT35BKCM	645 Mat

Part No	Description
● BTCBLYTF	Tape, "Caution/Cuidado"

DID YOU KNOW?

OSHA regulations specify color coding of barricades, but that is as far as they go. The size, material, and weight of barricade tape are up to the manufacturer.

Barricade tape colors, as decreed by OSHA, are as follows:

Tape Colors	Tape Coding	Tape Colors	Tape Coding
Red/White	Fire Prevention and Protection Equipment	Blue/White	Defective Machinery
Black/White	Housekeeping and Aisle Marking	Orange/White	Traffic and Caution Warning
Magenta/Yellow	Radiation Hazards	Black/Yellow	Physical Hazards
Green/White	Safety and First Aid

DID YOU KNOW?

The Meaning of Marking Flag Colors

Here are some of the construction marking flags colors and what they signify, according to the American Public Works Association (APWA) Uniform Color Codes.

See more at: http://www.parkerflags.com/The-Importance-And-Meaning-Of-Construction-Marking-Flags-Blog.html#sthash.vmYNwgJs.dpuf.

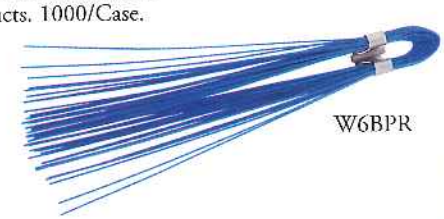

Color	Description
Red	Electric power line, cables, conduit or lighting cables
Yellow	Natural gas lines, oil, petroleum, steam or other gaseous and potentially flammable material
Orange	Telecommunication lines, cable TV and alarm or signal lines
Blue	Drinkable water
Green	Sewers lines and drains
White	Proposed excavation routes and limits
Purple	Irrigation, reclaimed water or slurry
Pink	To mark temporary survey areas

Cortina Safety Products Group

Flags are reinforced heavy-duty vinyl with ¾" hardwood dowels. Fluorescent Orange.

Part No	Description
032293417CSP	Traffic Flag, 18" x 18" w/ 24" Dowel
032293404CSP	Traffic Flag, 18" x 18" w/ 30" Dowel
032293418CSP	Traffic Flag, 24" x 24" w/ 36" Dowel

FLAGGERS

Flaggers and others providing temporary traffic control should wear high-visibility clothing with a background of fluorescent orange/red or yellow/green and retro-reflective material of orange, yellow, white, silver, or yellow/green. In areas of traffic movement, this personal protective equipment will make the worker visible for at least 1000', so that the worker can be seen from any direction, and make the worker stand out from the background. Check the label or packaging to ensure that the garments are performance class 2 or 3.

DID YOU KNOW?

Work Zone traffic safety transportation incidents and workers struck by vehicles or mobile equipment account for the highest number of fatal work injuries, according to the Bureau of Labor Statistics. (2) Plus more than 20,000 workers are injured in road construction work zones each year. According to a presentation on Injury Hazards in Road and Bridge Construction, between 2003-2008, these injuries were caused by:

- Contact with objects or equipment (35%)
- Slips, trips, or falls (20%)
- Overexertion (15%)
- Transportation incidents (12%)
- Exposure to harmful substances or environments (5%).

DID YOU KNOW?

Cones (18") must be predominantly orange and be made of a material that can be struck without causing damage to the impacting vehicle. Use only during daytime and on low-speed roadways, 40mph or less. Cones may be doubled up to increase their weight.

Cones (28") are used on freeways and other high-speed highways, at night on all highways, or when more conspicuous guidance is needed. For nighttime use, cones must have two bands of retroreflectorized material.

PREMIUM WHEEL CHOCK

The weight-saving, wedge-shaped design of this premium molded-rubber wheel chock provides additional holding power for larger tire diameters. 7.3 lb. 12"L x 6 13/16"H x 4½"W.

Part No	Description
PMWCTF	Premium Chock

TruForce

PMWCTF

HEAVY-DUTY WHEEL CHOCK

Chock is made of reinforced-rubber sheets, laminated between thick steel end plates. Its curved surface grips the road for superior holding power, while a welded steel eye helps secure it against loss. 11.5 lb. 11"L x 6"H x 8"W.

Part No	Description
HDLWCTF	Heavy-Duty Chock

HDLWCTF

WARNING

Chocks should be used only after vehicle is completely stopped and parking brakes fully applied and tested. Position wheel chocks snugly and squarely against the center of the tire tread area of each wheel. Always use wheel chocks in pairs and on firm surfaces. More than one pair may be required. Chock in direction of grade. Chock wheels on both sides of vehicle in direction of grade. Test chocks to ensure they meet your requirements. Always remove wheel chocks before attempting to move vehicle. Do not drive over wheel chocks. Improper use can result in product failure. These guidelines are not intended to be exhaustive. Please review and follow proper wheel chock procedures whenever using wheel chocks.

RST1BR	Escape Tool

RST1BR

UNDERWATER RESCUE

THE WHY TO BUY

1. Open the window as fast as possible before you hit the water, if you can, or immediately afterward.

2. Stay still, with your seat belt on, until the water in the car goes up to your chin. Then take several slow, deep breaths and hold one.

3. Do not try to open the door until the water has stopped flooding into the car. The pressure inside and outside the car should equalize about the time you start holding your breath. If you can't open a door and you're trying to break a window instead, aim for a side window, never the windshield. Windshields are several layers thicker.

4. Don't take off your seat belt until you have opened a door or window. Grip the steering wheel before you unbuckle. You'll need something keeping you tethered so that you can pull yourself out of the car.

Julie Zauzmer. The Washington Post. *How to escape from a car underwater.* https://www.washingtonpost.com/local/how-to-escape-from-a-car-underwater/2013/07/22/be6dccb2-f2e6-11e2-8505-bf6f231c77b4_story.html. 2015.

SMARTCOMPLIANCE FIRST AID KITS

With unique cabinet designs, these compliance kits eliminate disorganized and missing supplies. Cabinets have clearly labeled compartments that are easy to use, and the **Smart Tab EzRefill™** system keeps track of contents. With the expansion pockets, they can be customized to meet specific needs too. Contents subject to change without notice.

DID YOU KNOW?

OSHA requires companies to provide first aid to employees and are encouraged to train at least one employee in first aid and CPR. ANSI Z308.1 specifies what items a first aid kit should contain.

"By failing to prepare, you are preparing to fail," Benjamin Franklin.

David M. Roston. ISHN. *Every Second Counts. How To Prepare For A Medical Emergency.* (2015) 86-87.

Honeywell

PURE FLOW 1000® EYEWASH STATION

Station provides a flow rate and stream height for a full 15-minute cycle (as required by ANSI Z358.1). And factory-sealed cartridges eliminate mixing and contamination of fluid. There's no plumbing required either. Fluid reservoir captures waste to eliminate spills and simplify fluid disposal. Mount to the wall or place on mobile cart.

Part No	Description
320010000000HW	Pure Flow Station (Empty)
320010500000HW	Saline Cartridges (For Pure Flow), 3.5 gal, 2/Pkg

320002300000HW

PORTA STREAM® II EYEWASH STATION

Simple to install and operate, this self-contained station features a nozzle strap that easily removes to activate flushing, leaving hands free to hold eyelids open. Large 16 gal capacity permits thorough flushing by providing 0.4 gpm over the entire 15-minute flushing period required by ANSI Z358.1.

Part No	Lens Color
320002300000HW	Porta Stream Station w/ Water Additive
320005130000HW	Saline Concentrate (For Porta Stream), 180 oz, 4/Case
320011000000HW	Water Additive, 8 oz, 4/Case

320020000000HW In Use

2000® EYEWASH STATION

Eyewash station features a built-in alarm that sounds when the unit has been activated and again when the individual using it has completed the 15-minute flush. It's portable, too, easily moving wherever workstations move. The system also has an easy-view side window (to check sterile solution expiration date) and is easy to refill with the single replacement cartridges (sold separately). Meets ANSI Z358.1.

Part No	Lens Color
320020000000HW	2000 Station (Empty)
32ST20500000HW	Saline Cartridge (For Fendall 2000), 7 gal

320004620000HW

EYESALINE® WALL STATIONS & BOTTLES

Choose from single- or double-bottled stations. Bottles are sterile, sealed, and contain saline. An extended flow opening creates a longer flow rate too.

Part No	Description
320004620000HW	Eyesaline Double Station, 64 oz
320010520000HW	Eyesaline Double Station, 16 oz
320004610000HW	Eyesaline Single Station, 32 oz
320004600000HW	Eyesaline Single Station, 16 oz
320004550000HW	Eyesaline Saline Bottle, 32 oz
320004540000HW	Eyesaline Saline Bottle, 16 oz
320004450000HW	Eyesaline Saline Bottle, 8 oz
320004520000HW	Eyesaline Saline Bottle, 4 oz
320004510000HW	Eyesaline Saline Bottle, 1 oz
320004350000HW	Eyesaline Universal Bottle Mount, 4/Case (Fits Bottles up to 32 oz)

IN USE PICTURES MAY SHOW ITEMS NOT INCLUDED OR SOLD SEPARATELY.

PORTABLE EYEWASH STATION & PRESERVATIVE

Gravity operated with a 9 gal capacity, this **Eyewash Station** provides a full 15 minutes of flushing at 0.4 gpm. Its wide opening and threaded cap also make inspection, cleaning, and filling easy. The FDA-approved, high-density green polyethylene tank features a handle on top for portability. And it's easily mounted with the included bracket. Station measures 14½"H x 22"W x 10⅛"D. Meets ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment. **Preservative** treats 5-20 gal of potable water for up to three months.

Part No	Description
7501LFA	Eyewash Station
9082LFA	Water Preservative, 5 oz

7501LFA

AXION® MSR WALL-MOUNT EYE/FACE WASH

Featuring an 11" green ABS plastic receptor and eye/face wash head with an inverted flow design, this unit is consistent with EMT, emergency room, and doctor's office protocols. It also includes a mesh in-line water strainer that prevents debris from reaching the eyewash and a yellow plastic pop-off dust cover for the eyewash head. Meets ANSI Z358.1 standard for Emergency Eyewash and Shower Equipment.

Part No	Description
7260B7270BLFA	Eye/Face Wash

7260B7270BLFA

THE WHY TO BUY

The OSHA requirements for emergency eyewashes and showers, found at 29 CFR 1910.151(c), specify that "where the eyes or body of any person may be exposed to injuries corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use."

OSHA. *Letter of Interpretation.* May 5, 2004.

EMERGENCY EYEWASH/SHOWER TAGS

Tags help meet ANSI Z358.1 inspection requirements and include reinforced fiber patch hole. 3" x 5¾". White with green print. 100/Pkg.

BLOODBORNE PATHOGEN & PERSONAL PROTECTION PRODUCTS

Bodily fluids are formidable opponents, especially somebody else's. That's why it's not a good idea to deal with them unprotected. To help maintain a healthy barrier when administering first aid or while working with, cleaning up, or disposing of biohazardous materials, we recommend one of these essential products.

Part No	Description
M915AC	Fluid Control Solidifier Pack, 21 g
30897AC	Germicidal Surface Wipe, 8" x 8", 50/Box
M949AC	Sharps Container, 1 qt

EMERGENCY BLANKETS

Using state-of-the-art technology, these blankets effectively reflect back 90% of a person's body's heat when wrapped around them. 52" x 84".

Part No	Description
Z801AC	Emergency Blanket
I800AC	Emergency Blanket, 5/Box

BLANKETS

Wool Humanitarian/Emergency Relief Blanket

Weighing a hefty 2.25 lb, this durable blanket retards fire and heat yet offers warmth, making it ideal for covering shock victims or for rescue personnel needing a warm, comfortable retreat. 30% wool, 70% synthetic. 80" x 62". Gray.

Part No	Description
5309LFA	Humanitarian Blanket

All-Weather Blanket

A NASA by-product that reflects and retains over 80% of radiated body heat, its four-ply laminated structure (with an **Astrolar**® middle layer) forms a puncture-, wind-, and moisture-resistant barrier. Besides providing protection from the elements, it doubles as a signal mirror and has a full-edge binding and corner grommets for tie-down too. 84" x 60". Red/Black/Silver.

Part No	Description
8125LFA	Weather Blanket

BLOOD CLOTTING AGENTS & SUPPLIES

Woundseal powder stops bleeding in seconds by creating an instant scab or seal when combined with the wound's own blood. The microbial barrier over and around the wound helps to prevent infection too. **Celox** blood-clotting agent stops bleeding fast—on cuts, scrapes, nosebleeds, and moderate-to-severe bleeding. It even works in the presence of anticoagulants. These products are packaged for easy carry too.

Part No	Description
90447AC*	Liquid Skin Bandage, 0.5 g, 4/Box
90325AC	Woundseal Blood Clot Powder, Applicator Packs, 2/Pkg

WATER-JEL TECHNOLOGIES

STERILE BURN DRESSINGS

Easing the pain and cooling the burn, these dressings help protect against airborne contamination—all in one simple step. Each one features a non-woven polyester carrier and is pre-dressed for immediate application.

Part No	Description
6502LFA	Burn Dressing, 4" x 4"
041628LFA	Burn Dressing, 4" x 16"
081820LFA	Burn Dressing, 8" x 18"

BURN RELIEF

Thick topical gels start cooling and soothing minor burns immediately, and they protect the injuries from infection. **Burn Jel** and **Burn Spray** contains Lidocaine to draw the heat out of the wound and ease the pain. **Cool Jel** moisturizes the injured area and is especially effective at keeping out contaminants and irritants that could delay healing.

Part No	Description
6500LFA	Burn Jel, 3.5 g, 25/Pkg
4240BLFA	Burn Jel, 4 oz

DID YOU KNOW?

In 2013, there were 3,007,300 workplace injuries or illnesses (3.3 cases for every 100 workers). And more than half required, on average, 8 missed days from work.

Bureau Of Labor Statistics, "Nonfatal Occupational Injuries and Illnesses Requiring Days Away From Work." http://stats.bls.gov/news.release/archives/osh2_12162014.pdf. 2013.

13305EG

ARSENAL® GEAR BAGS

Available in 1000-D polyester, this rugged bag resists abrasions, tears, scuffs, and punctures. It repels water, too, and features heavy-duty zippers that stay closed until opened. And it has a polyurethane interior; a removable, adjustable shoulder strap; and **Grab N' Go** pull strap. Red.

816645MSA	4-Point Swing-Ratchet Suspension (For V-Gard)

CUSTOM ORDERS

Our hard hats can be customized with company logos and choice of reflective striping. Contact us for more information.

WARNING

Use only the indicated MSA suspension in your helmet. Do not mix suspension sizes and helmet sizes (i.e., putting a standard sized suspension in a large helmet or any other mismatched combination.) Do not use competitor suspensions in MSA helmets. Inspect your suspension frequently. Suspensions should be replaced every 12 months, regardless of inspection results. Replace immediately (along with the helmet), if an impact has occurred. Failure to follow these instructions will reduce the energy absorbing ability of the protective helmet to receive impact, and could result in serious injury or death.

Part No	Description
12607EG	6700FR Bandana

DID YOU KNOW? The Primary Risk Factor for Heat Fatalities Is The Lack of Acclimatization Programs

Acclimatization is a critical part of preventing heat illnesses and fatalities, and workers should gradually build up workloads and exposure to heat by taking frequent breaks for water and rest in shade or air conditioning. **Note: OSHA has a free application for mobile devices that enables workers and supervisors to monitor the heat index at their work sites.**

OSHA. *CDC report on OSHA's review of heat-related enforcement cases highlights need for acclimatization to prevent worker deaths.* https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=NEWS_RELEASES&p_id=26502. 2015.

IN USE PICTURES MAY SHOW ITEMS NOT INCLUDED OR SOLD SEPARATELY.

CHILL-ITS® EVAPORATIVE COOLING BAND

Featuring advanced PVA cooling technology, this super-evaporative wrap becomes significantly colder than ambient air when dampened. And it activates fast—just needs one minute in cold water. Plus it's reusable and machine washable. 29½" x 4". Blue.

Part No	Description

Comfortable **50 dB**	**50 dB**	
	Normal Conversation – 60 dB Transformer – 50 dB	60 dB – Dishwasher 50 dB – Rainfall

What is NRR? The NRR (Noise Reduction Rating) is a single number rating system representing the average noise reduction, in decibels, that a hearing protection device will provide.

- The EPA requires that all hearing protection products carry an NRR label.

What is Derating NRR? To compute a realistic noise reduction, OSHA recommends derating hearing protectors by reducing the published NRR 50%. You should also use a 7 dB correction to the NRR with A-weighted sound levels. A-weighted sound measurements filter sound more accurately, modeling the human ear. C-weighted is unfiltered sound data that is intended for use with NRR values. When using both the derating and the correction together, 7 dB is subtracted prior to derating by 50%.

Howard Leight. *Noise Thermometer.* http://www.howardleight.com/news/details?id=noise-thermometer. 2015.

TYPES OF HEARING PROTECTION

The OSHA CFR 1910.95 regulation requires employers first to utilize "engineering controls" to reduce noise levels in their work environments. Should these controls fail to reduce noise to acceptable limits, the regulation states that "personal protective equipment shall be provided and used to reduce sound levels."

FF1HW

Employers are also required to implement an "effective hearing conservation program" whenever employee noise exposure levels equal or exceed an 8-hour time-weighted average sound level (TWA) of 85 dB.

SMF30HW

Single Use:

- An economical and convenient choice for work situations that demand a high degree of comfort, frequent changes, or where hygiene presents a problem for re-use.

QB2HYGHW

Multiple-Use:

- Ideal for environments where employees can retain and store earplugs for re-use over time–reducing waste and saving money.

Banded:

- An alternative for those who work in intermittent noise or for managers and visitors who move in and out of noisy areas.

Detectable:

- Specially created for environments where contamination from foreign objects is unacceptable.

Earmuffs:

- These block noise and manage sound in some of the world's most acoustically challenging environments.

Howard Leight. *Regulations.* http://www.howardleight.com/hearing-protection/regulations. 2015.

FF1HW

FIRMFIT™ SINGLE-USE EARPLUGS

Constructed from PVC foam, these earplugs are softer and more comfortable than the leading cylinder shape earplug. They also require less pressure to roll down, and once in place, they exert less pressure on the ear canal for enhanced comfort. NRR 30. Orange.

Part No	Description
FF1HW	Firmfit, Uncorded, 200 Pair/Box
FF30HW	Firmfit, Corded, 100/Box

MAX1HW

MAX® SINGLE-USE EARPLUGS

Made from polyurethane foam, these bell-shape earplugs softly fill ear canals to block out harmful noise. Their smooth outer skin helps prevent dirt build-up too. NRR 33. Red.

Part No	Description
MAX1HW	Max, Uncorded, 200 Pair/Box
MAX30HW	Max, Corded, 100/Box
MAX1DHW	Max, Uncorded, LS-500 Dispenser Refill, 500 Pair/Box

MAX30HW

MAX1SHW

MAX® SMALL SINGLE-USE EARPLUGS

Features the same comfort as the **Max**, but in a 20% smaller size. NRR 30. Peach.

SMARTFIT® MULTIPLE-USE EARPLUGS

Featuring **Conforming Material** technology, these earplugs use the wearer's body heat to adapt them to the ear canal. They're also easy to clean and come with a detachable cord and **HearPack®** storage case. NRR 25. Orange. 100/Box.

Part No	Description
SMF30HW	SmartFit, Corded

QUIET® MULTIPLE-USE EARPLUGS

Easy to clean, these multi-use earplugs have an ear canal shape for a comfortable fit. They also have a no-roll design with an insertion stem. NRR 26. Orange.

Part No	Description
QD1HW	Quiet, Uncorded, 100 Pair/Box
QD30HW	Quiet, Corded, 100/Box

DID YOU KNOW?

Every year, approximately 30 million people in the United States are occupationally exposed to hazardous noise. Noise-related hearing loss has been listed as one of the most prevalent occupational health concerns in the United States for more than 25 years. Thousands of workers every year suffer from preventable hearing loss due to high workplace noise levels. An estimated $242 million is spent annually on worker's compensation for hearing loss disability

OSHA. *Occupational Noise Exposure.* https://www.osha.gov/SLTC/noisehearingconservation. 2015.

CLARITY® MULTIPLE-USE EARPLUGS

Best suited for noise environments of 95 dB or lower, these earplugs block low and medium frequencies, while the higher frequencies—alarms, voices, and more—can still be heard. Includes a reusable case. Corded. NRR 21. 10/Box

Part No	Description
1005328HW	Clarity, Small, Green
1005329HW	Clarity, Regular, Blue

AIRSOFT MULTIPLE-USE EARPLUGS

Earplugs' advanced air pocket design features internal noise-blocking fins along with a four-flange profile that creates a better seal in the ear canal. They also create less pressure, eliminating that "plugged up" feeling. Plus they feature rounded flanges and tapered shapes for a better fit and firm stems for easy insertion and removal. NRR 27 Blue. 100/Box.

Part No	Description
DPAS30WHW	AirSoft, Corded

LASER TRAK® DETECTABLE EARPLUGS

Non-ferrous metal grommets and bright colors make these earplugs easy to detect (by sight and by automated inspection). The contoured "I" shape and self-adjusting foam construction create a perfectly comfortable fit too. NRR 33. Orange/Blue. 100/Box.

Part No	Description
LT30HW	Laser Trak, Corded

EARPLUG DISPENSERS

Tough acrylic dispensers offer convenient storage and a clear view of when to refill. Place close to machinery or near problem noise areas.

IMPACT® SPORT SOUND AMPLIFICATION EARMUFFS

Earmuffs amplify ambient sound to a safe 82 dB, allowing the wearer to hear important communications and environmental sounds. Features include **Air Flow Control™** technology, for optimal attenuation across all frequencies; snap-in ear cushions; Aux input; and non-deforming outer headband to withstand rough treatment in the toughest workplaces. NRR 22. Green/Black.

Part No	Description
R01526HW	Impact Earmuffs

IN USE PICTURES MAY SHOW ITEMS NOT INCLUDED OR SOLD SEPARATELY.

DID YOU KNOW?

There is a ceiling effect that limits the amount of hearing protection we can achieve with dual protection (wearing an earplug and earmuff). Once we reach that limit, adding more protection offers no additional benefit. Wearing an earmuff over a well-fit foam earplug only adds about 3-5 dB of additional attenuation; we don't get to simply add the NRR values of both protectors. Still, using double protection provides the maximum possible attenuation in extreme noise environments.

Brad Witt. *Fact or Fiction: Hearing Protectors.* http://www.hearforever.org/quiz/fact-or-fiction-hearing-protectors. 2015.

THUNDER® EARMUFFS

Dielectric muffs are appropriate for all workplaces—even those that deal with electricity. Their **Quick-Click** height adjustment provides a comfortable fit and stays put, while snap-in ear cushions make replacement fast and easy.

THINGS TO CONSIDER WHEN CHOOSING A LENS

- Protective eyewear is available in a variety of tinted lenses as well as clear. These tints are not merely decorative, but are designed to enhance the workers vision under various lighting conditions.
- The amount of visible light that passes through each lens and how the lens tint affects vision are important factors in lens selection.
- The American National Standards Institute (ANSI) provides guidelines for clear and filter plano (non-prescription) lenses in its Z87.1-2015 edition.
- All Crews and U.S. Safety styles absorb 99.9% of UV radiation.
- Noted styles also meet Military MIL-PRF-31013 Test Regiment for High Velocity Impact Protection.

Clear:

- 90% of light is transmitted – the remainder of light is blocked by the coating on the lens.
- Provide excellent optics for general applications.
- Most popular lens because it allows the majority of light to pass through the lens while not distorting the visible color spectrum.
- General purpose providing maximum impact protection and maximum visibility.

Amber:

- 80% of light transmitted.
- Excellent for maximum contrast enhancement, particularly in low light situations.
- The amber lens color blocks virtually all blue light to reduce haze and glare making all blue look black or gray.
- The disadvantage is that when you eliminate blue light, you distort color recognition.

Light Blue:

- 68% of light transmitted.
- Option to Indoor/Outdoor lens.
- Reduces glare from artificial light such as halogen and fluorescent.

Indoor/Outdoor Clear Mirror:

- 36% of light is transmitted.
- Clear lens with a mirrored coating on the outside.
- Allows more visible light through than other tinted lenses and may be used indoors.
- Best for workers going inside to outside, like forklift drivers, for reducing glare from artificial light such as halogen and florescent. Lens is not transitional.

Brown:

- 13% of light transmitted.
- Distinguishes color while reducing glare and brightness for outdoor applications. Meets the traffic signal recognition requirements of ANSI Z80.3.
- Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.

Gray:

- 13% of light transmitted.
- Reduces the amount of light that passes through the lens.
- Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.

Polarized:

- 13% of light transmitted.
- Reduction of reflected light (glare).
- Improves optical clarity.
- Enhances contrast and depth perception.
- Minimizes eye fatigue.

Mirror – Silver, Blue, Fire, Emerald, Black, and Blue Diamond

- 9%-13% of light is transmitted.
- Gray lens with mirrored coating on the outside.
- Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.
- The "mirror" coating reflects light reducing the amount of light that passes through the lens.

Filter Shade Lens:

- Filter shades lenses protect against ultraviolet and infrared radiation that is generated when working with molten metal and in welding, cutting, soldering, and brazing operations.
- Filter shades are marked with a number on the lens indicating the shade number.
- Green Filter 3.0 lens 12% of light is transmitted.
- Green Filter 5.0 lens 2% of light is transmitted.

MCR Safety recognizes that these are general definitions and recommends you should always consult with your safety director at the facility where the products are to be used to insure the proper application.

DID YOU KNOW? Eye injuries alone cost more than $300 million per year in lost production time, medical expenses, and worker compensation. Each day, about 2000 US workers have a job-related eye injury that requires medical treatment. More than 100 of these injuries result in one or more days of lost work. The good news is that approximately 90% of these injuries are preventable with proper eye protection. OSHA requires employers to make sure that all employees use appropriate eye protection.

PORTABLE EYEWASH STATION & PRESERVATIVE

Haws®

7501LFA

Station is gravity operated with a 9 gal capacity, providing a full 15 minutes of flushing at 0.4 gpm. Its wide opening and threaded cap also make inspection, cleaning, and filling easy. The FDA-approved, high-density green polyethylene tank features a handle on top for portability. And it's easily mounted with the included bracket. **Station** measures 14½"H x 22"W x 10⅛"D. Meets ANSI Z358.1 Standard for Emergency Eyewash and Shower Equipment. **Preservative** treats 5-20 gal of potable water for up to three months.

Part No	Description

1501GN

NIOSH-APPROVED RESPIRATOR RATINGS EXPLAINED

Particulate filtering facepiece respirators protect by filtering particles out of the air the user is breathing. There are seven classes of filters for NIOSH-approved filtering facepiece respirators available at this time. Ninety-five percent is the minimal level of filtration that wil be approved by NIOSH. The N, R, and P designations refer to the filter's oil resistance as described in the table.

THE WHY TO BUY

Class	Description
N95	Filters at least 95% of airborne particles. Not resistant to oil.
N99	Filters at least 99% of airborne particles. Not resistant to oil.
N100	Filters at least 99.97% of airborne particles. Not resistant to oil.
R95	Filters at least 95% of airborne particles. Somewhat resistant to oil.
P95	Filters at least 95% of airborne particles. Strongly resistant to oil.
P99	Filters at least 99% of airborne particles. Strongly resistant to oil.
P100	Filters at least 99.97% of airborne particles. Strongly resistant to oil.

P100-Particulate Filter (99.97% filter efficiency level) effective against all particulate aerosols.

NOTES

1. Do not use in atmospheres containing less than 19.5% oxygen, in atmospheres containing gases or vapors or in atmospheres immediately dangerous to life and health.
2. Do not use in atmospheres containing less than 19.5% oxygen or in atmospheres immediately dangerous to life and health.
3. Do not wear for protection against organic vapors with poor warning properties or those which generate high heats of reaction with the sorbent material in the cartridge.
4. 99.97% efficient against 0.3 micron DOP.

MSA. *Safety Equipment Catalog.* 2015-2016.

WARNING

An appropriate cartridge change-out schedule must be developed by a qualified professional, unless the cartridge/canister utilizes an end-of-service-life indicator. The change-out schedule must take into account all factors that may influence respiratory protection, including specific work practices and other conditions unique to the worker's environment. If using against substances having poor warning properties, there is no secondary means of knowing when to replace the cartridges/canister. In such cases, take appropriate additional precautions to prevent overexposure, which may include a more conservative change-out schedule or using an air-supplied respirator or SCBA. Failure to follow this warning can result in serious personal injury or death. As a reference, below is a partial list of substances having poor warning properties:

- Acrolein
- Aniline
- Arsine
- Bromine
- Carbon monoxide
- Diisocyanates
- Dimethyl sulfate
- Hydrogen cyanide
- Hydrogen selenide
- Methanol
- Methyl bromide
- Methyl chloride
- Methylene chloride
- Nickel carbonyl
- Nitric acid
- Nitro compounds
  - Nitrogen oxides
  - Nitroglycerin
  - Nitromethane
- Phosgene
- Phosphine
- Phosphorus trichloride
- Stibine
- Sulfur chloride
- Urethane or other diisocyanate containing paints
- Vinyl chloride

AIRHAWK® II SCBA WITH AIRFRAME™ CARRIER & HARNESS ASSEMBLY

A lightweight, durable, and economical Self-Contained Breathing Apparatus (SCBA), it's ideal for many industrial IDLH (immediately dangerous to life or health) applications. As a pressure-demand apparatus, it's designed to maintain a slight positive air pressure inside the facepiece during inhalation and exhalation. This helps prevent contaminants from seeping in and around the facepiece—even should small breaks occur in the face-to-facepiece seal. And the **AirFrame™** carrier and harness feature large side handles and a central attachment point to pull workers to safety in rescue situations. The harness actually distributes the SCBA's weight over the user's hips for added comfort and stability. Its composite backplate is made of glass-fiber-reinforced thermoset plastic, too, and is ergonomically designed with spine strain relief. This SCBA assembly also includes a medium **Ultra-Elite®** facepiece with a **Hycar™** rubber face seal, rubber head harness, and a low-pressure (2216 psig), 30-minute aluminum cylinder. NIOSH approved. **NOTE**: Non-NFPA compliant.

Part No	Description

ALTAIR® 5X MULTIGAS DETECTORS

Rugged and multi-featured, these units boast several options and features for maximum safety and ease of use. They come standard with large buttons for use with gloves and polycarbonate housings that protect detectors from bumps, bruises, and drops of up to 10'. An integral pump also provides consistent gas flow without the need for externally attached components. And they feature **MotionAlerts** (alerts others if the user has become immobile), **InstantAlerts** (a manual alarm to alert others of danger), **Integrated PID** (a sensor option VOC detection), and **Bluetooth** (to monitor gas readings and alarms remotely). Includes 3-year warranty, data logging, charger, and tubing too.

Part No	Description
10116924MSA	Altair 5X Detector, Monochrome Display, LEL/O_2/CO/H_2S
10116926MSA	Altair 5X Detector, Monochrome Display, LEL/O_2/CO/H_2S, 10' Sampling Line, & 1' Probe

10040664MSA	Altair 5X 25' Sample Line (For Non-Reactive Gases)

10116924MSA

ALTAIR® 4X MULTIGAS DETECTORS

Surpassing industry standards in several crucial areas, these detectors feature a four-year sensor life, which is 60% longer than the industry average. What's more, their 24-hour run time exceeds the industry average by 71%. Perfect for applications ranging from confined space to welding, these versatile portable detectors' digital sensor outputs make them less likely to suffer from RF interference. In addition, units feature exclusive **MotionAlerts** (lets others know if the user has become immobile) and **InstantAlerts** (lets others know of potentially dangerous situations). Rugged, too, they're designed to withstand a drop of up to 20' and use less than half as much calibration gas as the industry average. Includes data logging and calibration cap and tubing.

MSA The Safety Company

GALAXY® GX2 AUTOMATED TEST SYSTEM

Offering advanced safety management and effortless operation, this system provides simple, intelligent testing and calibration of **Altair®** gas detectors. An easy-to-use automated test stand also offers high performance as either a stand-alone unit or an integrated portable detector management system, enabling total data access and control of the entire gas detector fleet. Plus new **Link™ Pro** software offers proactive safety management, gas exposure email alerts, direct data input, live filtering, test and exposure queries, collecting, and printing reports.

MOLD DETECTION KIT

Used to quickly sample visible mold colonies, discoloration, or questionable materials, this kit comes with three bags, test strips, sample card (fits up to six mold test strip samples), detailed sampling and processing instructions, and payment instructions. Samples can be taken with the adhesive strips or by bagging. Then simply return them to the laboratory for analysis (pre-addressed envelope included).
NOTE: Additional fee for certified lab analysis.

Part No	Description
442057	Mold Kit

DID YOU KNOW?

Mold is found both indoors and outdoors. Mold can enter through open doorways, windows, vents, and heating and air conditioning systems. Mold will grow in places with a lot of moisture, such as around leaks in roofs, windows, or pipes, or where there has been flooding. Mold grows well on paper products, cardboard, ceiling tiles, and wood products. Mold can also grow in dust, paints, wallpaper, insulation, drywall, carpet, fabric, and upholstery. In order to prevent it you can do the following:

- Keep humidity levels as low as you can—no higher than 50% all day long. An air conditioner or dehumidifier will help you keep the level low. Bear in mind that humidity levels change over the course of a day with changes in the moisture in the air and the air temperature, so you will need to check the humidity levels more than once a day.
- Add mold inhibitors to paints before painting and clean bathrooms with mold-killing products.
- Remove or replace carpets and upholstery that have been soaked and cannot be dried promptly. Consider not using carpet in rooms or areas like bathrooms or basements that may have a lot of moisture.

THE RIGHT GLOVES FOR THE RIGHT TASK

GLOVE SELECTION QUICK GUIDE

Glove Material	Intended Use	Advantages and Disadvantages	Example
Latex (Natural Rubber)	Incidental contact	• Good for biological and water-based materials. Poor for organic solvents • Hard to detect puncture holes • Can cause or trigger latex allergies	 5060LMG
Nitrile	Incidental contact (disposable exam glove) Extended contact (thicker reusable glove)	• Excellent general use glove--Good for solvents, oils greases, and some acids and bases • Clear indication of tears and breaks • Good alternative for those with latex allergies	 6015LMG  5350LMG
Neoprene	Extended contact	• Good for acids, bases, alcohols, fuels, peroxides, hydrocarbons, and phenols • Good for most hazardous chemicals • Poor for halogenated and aromatic hydrocarbons	 5409SMG
Polyvinyl Chloride (PVC)	Specific use	• Good for acids, bases, oils, fats, peroxides, and amines • Good resistance to abrasions • Poor for most organic solvents	 6212SJMG
Kevlar	Specific use	• Cut-resistant gloves • Sleeves are also available to provide protection to wrists and forearms (if potential for biological or chemical contamination: wear appropriate disposable gloves on top of your cut-resistant gloves and discard after use)	 9178NFOLMG
Leather	Specific use	• Cut-resistant gloves • Sleeves are also available to provide protection to wrists and forearms (if potential for biological or chemical contamination: wear appropriate disposable gloves on top of your cut-resistant gloves and discard after use)	 16010LMG

3202LMG

ACCORDING TO THE U. S. BUREAU OF STATISTICS:

- 110,000 hand injuries each year result in lost work time.
  - Of those injuries, 70% of workers were not wearing gloves at the time of the incident.
  - The other 30% were wearing gloves that were inadequate, damaged, or wrong for the hazard present.
- Lost-time workers compensation claims, resulting from hand injuries, are now an average of $7500 per incident.
- Wearing gloves reduces hand injury risk by 60%.

James Twigg. PPE.org. *Hand Injuries at Work.* https://www.ppe.org/hand-injuries-at-work/. 2013.

THE WHY TO BUY

ROAD HUSTLER COW LEATHER DRIVERS

Made of premium grain leather with slip-on cuffs for quick on/off, these gloves also include keystone thumbs with rolled leather hems. They're perfect for operating construction equipment, farm equipment, forklifts, and anywhere dexterity's required. Natural. Sold by the dozen.

Part No	Description
3200LMG	Road Hustler Gloves, Large
3200XLMG	Road Hustler Gloves, X-Large

3200LMG

PIGSKIN LEATHER DRIVERS

Very breathable, these gloves become softer with use, thanks to the porous nature of pigskin. And they have great abrasion resistance with industry grade grain leather and shirred elastic backs. Natural. Sold by the dozen.

8642LIP In Use

LATEX VS. NITRILE VS. VINYL

LATEX GLOVES

- Made of natural material, rubber
- Fit like a second skin
- Able to wear for extended amount of time
- Cost effective
- Biodegradable
- Work well for high-risk situations involving infectious material
- Many people have a latex allergy
- Recommended for Health Industry

NITRILE GLOVES

- Made of synthetic rubber
- Superior when it comes to puncture resistance
- Mold to your hand
- Able to wear for extended amount of time
- Available in blue or black to help identify if the glove has been punctured
- "Medical Grade" Before gloves can be marketed to hospitals and medical institutions (they must undergo a series of tests conducted by the Food and Drug Administration (FDA) to ensure their durability)
- Recommended for Health Industry

VINYL GLOVES

- Latex-free
- Have a looser fit
- Good for short-term, low-risk task
- Have anti-static properties
- Most economic option
- Less durable
- Recommended for Restaurant Industry

PROTECTING YOURSELF FROM HEAT STRESS

HEAT STROKE

A condition that occurs when the body becomes unable to control its temperature, and can cause death or permanent disability.

Symptoms

- High body temperature
- Confusion
- Loss of coordination
- Hot, dry skin or profuse sweating
- Throbbing headache
- Seizures, coma

First Aid

- Request immediate medical assistance
- Move the worker to a cool, shaded area
- Remove excess clothing and apply cool water to their body

HEAT EXHAUSTION

The body's response to an excessive loss of water and salt, usually through sweating.

Symptoms

- Rapid heart beat
- Heavy sweating
- Extreme weakness or fatigue
- Dizziness
- Nausea, vomiting
- Irritability
- Fast, shallow breathing
- Slightly elevated body temperature

First Aid

- Rest in a cool area
- Drink plenty of water or other cool beverages
- Take a cool shower, bath, or sponge bath

HEAT CRAMPS

Affect workers who sweat a lot during strenuous activity. Sweating depletes the body's salt and moisture levels.

Symptoms

- Muscle cramps, pain, or spasms in the abdomen, arms or legs

First Aid

- Stop all activity, and sit in a cool place
- Drink clear juice or a sports beverage, or drink water with food
- Avoid salt tablets
- Do not return to strenuous work for a few hours after the cramps subside
- Seek medical attention if you have the following heart problems, are on a low-sodium diet, or if the cramps do not subside within one hour

PROTECT YOURSELF

Avoid heavy exertion, extreme heat, sun exposure, and high humidity when possible. When these cannot be avoided, take the following preventative steps:

- Monitor your physical condition and that of your coworkers for signs or symptoms of heat illnesses
- Wear light-colored, loose-fitting, breathable clothing such as cotton. Avoid non-breathable synthetic clothing.
- Gradually build up to heavy work
- Schedule heavy work during the coolest parts of day
- Take more breaks when doing heavier work, and in high heat and humidity. Take breaks in the shade or a cool area
- Drink water frequently. Drink enough water that you never become thirsty
- Be aware that protective clothing or personal protective equipment may increase the risk of heat-related illnesses

HYDRATION

THE WHY TO BUY

Dehydration results in over 500,000 hospitalizations yearly. Every second you're on the job, you're losing the important fluids and nutrients that keep your body operating at full capacity. Hydration is your body's ability to manage this loss and return to its prime working condition. But this is what you really need to remember. When you're hydrated, the fluid level in your body is exactly where it should be, in balance. When you're dehydrated, your fluid level is off, out of balance. Hydrating in hot and cold conditions is critical to maintaining balance for performing well at work. When you're thirsty, you know you need to hydrate. But drinking water alone won't do the job. Water doesn't contain the electrolytes your body needs to keep it in balance. That's why you need Sqwincher. Sqwincher hydration solutions contain a correct balance of sodium, potassium and other key electrolytes.

Sqwincher. *Hydrate.* http://industrial.sqwincher.com/educate/hydrate. 2015.

CHILL-ITS® 5155 LOW PROFILE HYDRATION PACK

Highly portable and durable, this pack starts with a 600-D water-resistant rip stop polyester shell to shoulder its contents and a zip-up cap cover to keep out debris. Its antimicrobial bite valve is also covered to protect against contaminants. It's insulated, too, with a **DualCap** bladder (60 mm cap nestled into an 80 mm cap) for easy liquid and ice filling. Breakaway shoulder straps add an element of safety as well. 2 L Capacity. Lime.

6201A748ST

Cooler can keep food and drinks cold for five days and holds 160 cans—more than six cases of soda. Its **ThermOzone™** insulation contains no CFCs, HFCs, or HCFCs and it comes with a hinged lid, four cup holders, and two-way handles for easy carrying. Other features include a rustproof leak-resistant channel for no-tilt draining. 100 qt. Blue.

Part No	Description
6201A748ST	Xtreme Wheeled Cooler

ESKY™ SERIES COOLERS

Some of the toughest coolers you'll find anywhere, they are loaded with features, like scratch-resistant exoskeletons and durable, large-knuckle integrated hinges with stainless steel pins for a lifetime of easy opening. They also incorporate catch-free rubber latches that are recessed to keep them securely fastened. Liners and cutting boards contain antimicrobial additives, too, to resist odor, mold, and mildew, while **UVGuard**™ material protects the marine versions from the sun's damaging rays. And they'll keep ice up to 10 days (larger models). Threaded drains for connecting hose are standard as well.

ELITE COOLERS

Certified bear-resistant by the IGBC (Interagency Grizzly Bear Committee), these coolers are made so tough even a Grizzly can't open them. And their features are plenty. To start, they hold ice up to 10 days (large models), thanks to freezer-grade gaskets and 2" polyurethane insulation (except 20 qt). Press and pull latches are extra wide for gloved use, while all hardware is stainless steel to resist corrosion. They also come with molded-in tie downs, molded-in lock hasps, and molded-in handles (except 20 qt) for extra durability. And depending on the model, they include either trolley or flip-style handles. Non-skid, non-marking feet are standard, too, as are sloped drains and tethered, threaded plugs; built-in bottle openers; and lifetime guarantees.

Select the Proper Fall Protection Equipment

Three key components of the Personal Fall Arrest System (PFAS) must be in place and properly used to provide maximum worker protection.

Individually, these components will not provide protection from a fall. However, when used properly and in conjunction with each other, they form a Personal Fall Arrest System that becomes vitally important to safety on the job site.

A **Anchorage/Anchorage Connector**

Anchorage:
Commonly referred to as a tie-off point (Ex: I-beam)

Anchorage Connector:
Used to join the connecting device to the anchorage

(Ex: beam anchor)

B **Body Wear**

The personal protective equipment worn by the workers

(Ex: full body harness)

C **Connecting Device**

The critical link which joins the body wear to the anchorage/ anchorage connector

(Ex: self-retracting lifeline or shock-absorbing lanyard)

ISEA. *Personal Fall Protection Use and Selection Guide.* https://safetyequipment.org/wp-content/uploads/2015/05/Fall_UseGuide-2015.pdf. 2015.

FALLING OBJECTS AND TOOL LANYARDS

THE WHY TO BUY

Dropped objects are a serious concern that can put a workforce at risk and result in lost productivity. According to the Bureau of Labor Statistics, in 2010, there were 263 fatalities from being struck by a falling object or equipment in the U.S., which accounted for 6 percent of all workplace fatalities.

Other negative results of dropped objects include the cost of damaged equipment, whether it is the dropped object itself or an object it impacts below. But even if no damage or injury occurs from a dropped tool, a worker can lose hours of productivity by retrieving a mission critical tool, wasting time and money for the company

Industrial Safety & Hygiene News. *Secure your tools when working at heights.* http://www.ishn.com/articles/94238-secure-your-tools-when-working-at-heights. 2012.

Performance Class Guidelines

Type O (off road)**:** For non-roadway use, where workers are not exposed to high traffic or temporary control zones. Type O HVSA is Performance Class 1.

Type R (roadway)**:** For use where workers are exposed to traffic from public access highway rights-of-way or roadway temporary control zones. Type R HVSA may be Performance Class 2 or 3.

Type P (public safety)**:** For emergency and incident responders and law enforcement personnel who are exposed to struck-by hazards in roadway or off-road work environments. These garments provide additional options addressing competing hazards or the need for access to special equipment. Type P HVSA may be Performance Class 2 or 3.

Class E: High visibility garments that do not qualify as meeting the requirements of the standard when worn alone, but when a Class E item is worn with a Class 2 or Class 3 garment, the overall classification of the ensemble is Class 3.

Performance Class	Category	Minimum Background Material	Minimum Retro-Reflective or Combined Performance Material	Minimum Width Reflective Material
Class 1	Type O	217 sq in	155 sq in	1 in
Class 2	Type R	775 sq in	201 sq in	1.38 in (1 in Split Trim)
Class 2	Type P	450 sq in	201 sq in	2 in (1 in Split Trim)
Class 3	Type R	1240 sq in	310 sq in	2 in (1 in Split Trim)
Class 3	Type P	775 sq in	310 sq in	2 in (1 in Split Trim)
Class E	-	465 sq in	109 sq in	2 in (1 in Split Trim)

NOTE: Every state specifies the particular performance class and color that state will use in areas the state controls.

MAKE SURE YOU ARE COMPLIANT

- Employers must establish which workers are exposed to flame or electric-arc hazards
- Employers must estimate the incident heat energy for all electric-arc hazards
- Flame-Resistant apparel is required for all hazards greater than 2.0 cal/cm²
- Flame-Resistant apparel is required to provide full-body protection (head-to-toe)
- Flame-Resistant and Arc-Rated clothing are now considered PPE

THE WHY TO BUY

Employees who face possible foot or leg injuries from falling or rolling objects or from crushing or penetrating materials should wear safety footwear that meets ANSI minimum compression and impact performance standards in ANSI Z41. Also, employees whose work involves exposure to hot substances or corrosive or poisonous materials must have protective gear to cover exposed body parts, including legs and feet. If an employee's feet may be exposed to electrical hazards, non-conductive footwear should be worn. On the other hand, workplace exposure to static electricity may necessitate the use of conductive footwear.

CT™ COMFORT TECHNOLOGY 16" PVC BOOTS

Footwear offers a lot of protection in a very comfortable way. First off, their seamless PVC-injection-molded construction guarantees 100% waterproof performance. And their unique scalloped top-line design accommodates flexing, which prevents the boots from rubbing on the wearer's legs. They also feature **Trac10™** outsole pattern's increased traction on slippery surfaces. Other features include contoured heel cups and removable foot form cushioned insoles to help reduce heel slippage while providing support and all-day comfort. Black.

1339ORGUST	Ultra 3000 Vest, Orange

1339BLUUST In Use

ULTRA COMMERCIAL AUTOMATIC/MANUAL INFLATABLE VEST

Designed to auto inflate when submerged in water, this vest can also be inflated manually (lanyard or oral tube). It features a heavy-duty nylon outer shell and uses **3M™ Scotchlite™** reflective material (SOLAS-grade 6755) on the front for maximum visibility. Its tri-fold design also provides a comfortable fit, while it provides 33.7 lb (150 Newtons) of buoyancy when fully inflated. It comes standard with a whistle, mesh bag, cylinder, and bobbin. A pocket and D-ring are standard too. Adult universal size. U.S. Coast Guard approved type V/II (Auto) or V/III (Manual) device. Orange.
NOTE: Use Rearm Kit 0927KITST.

Part No	Description
1470ORGUST	Ultra Commercial Vest

1470ORGUST

WORK MASTER™ VESTS

Vests come with soft, comfortable closed-cell foam plus snag-resistant body-encircling belts with slides for quick adjustment. And marine mesh linings make them extremely breathable, while flotation collars add extra neck protection. Vests are highly visible, too, thanks to 62 sq in of SOLAS-grade reflective tape. U.S. Coast Guard approved Type III/V device. Orange.

Part No	Description

DID YOU KNOW?

Employees working over or near water, where the danger of drowning exists, shall be provided with U.S. Coast Guard-approved life jacket or buoyant work vests. Prior to and after each use, the buoyant work vests or life preservers shall be inspected for defects, which would alter their strength or buoyancy. Defective units shall not be used. Ring buoys with at least 90 feet of line shall be provided and readily available for emergency rescue operations. Distance between ring buoys shall not exceed 200 feet. At least one lifesaving skiff shall be immediately available at locations where employees are working over or adjacent to water.

5S LEAN INCREASE EFFICIENCY AND ORGANIZATION

THE WHY TO BUY

By using these 5 steps you can quickly reduce inventory cost, improve safety, develop control through visual cues and improve inventory levels.

Step	What to do	How to do it
Sort	Sort it out! The first step is to organize the work areas, leaving only those tools and materials necessary to perform daily activities. Identify items that are not necessary or used frequently.	Use carts and dollies to temporarily hold and transport red-tagged items for removal.
Set	Frequently used work station materials and tools should be arranged so that all needed items are easy to get to and accessible for anyone to find. Work areas should be set up in an organized way that makes the most efficient uses of shelving racks, counter areas, and floor space.	**AkroBin®**, **Shelf,** and **InSight®** bins let you store items close to each other. Louvered hanging systems create vertical storage and help to make the most of an area, while wire and steel shelving systems create customized storage systems to fit any workspace.
Shine	Prevent dirt from accumulating, and develop a cleaning maintenance schedule to help protect parts and equipment from dirt, dust, and debris. In order to protect and prevent issues, keep check on the condition of equipment, and store materials securely with lids.	Easy-to-clean totes and attached lid containers nest when empty for efficient organization and storage. **Akro-Grids** have divider options to create individual compartments for parts plus optional lids. Many **Akro-Mils** plastic products are resistant to oils, chemicals, and weak acids.
Standardize	Benchmarking and evaluation tactics should be utilized to maintain a consistent approach for carrying out tasks and procedures. Now that you have created an organizational system, develop procedures to keep your 5S method in operation.	**Indicator®** bins simplify visual recognition when supplies need to be replenished never run out again! Super-size **AkroBins** securely stack atop each other, ensuring items stay in their proper places. By standardizing operator work stations, non-value-added tasks are removed or corrected, which reduces downtime and increases output and efficiency.
Sustain	A disciplined and committed workflow process empowers workers to improve and maintain the workplace. When employees take pride in their work, it leads to greater job satisfaction and higher productivity.	Reinforcing and evaluating best practices will keep waste out of the process and provide a solid foundation from which to build improvements in the future. Plastic and steel material handling products promote effective storage, organization, and transport systems to boost efficiency and reduce costs in any work environment.

KANBAN EXTENDED LABEL HOLDER

Designed for larger bar code scanning, these label holders help to improve efficiency and boost productivity. They feature bright-orange **Kanban** flags that slide out to indicate bins need to be refilled. They can also be installed with the 2" x 4" label area facing upward or downward. Holders fit all 4" shelf bins (except **30110**) and all 6" **ShelfMax** bins as well as **AkroBins** with small label areas (**30210, 30220, 30224, 30232, 30242**).

SUPER-SIZE AKROBINS® STORAGE BINS

Molded from industrial-grade polymers, these heavy-duty bins are resistant to weak acids and alkalis, and they're waterproof, rustproof, and corrosion proof. They securely stack atop each other, too, and can sit on shelving, carts, and dollies. And their reinforced side ribs and extra-wide stacking ledges provide stability and prevent spills and spreading when stacked. Other features include large label areas for easy identification. Blue.

STAK-N-STORE BINS

Forming tall, stable storage arrangements on the floor or on standard industrial shelving, these bins are made from durable industrial-grade polymer, so they won't rust, corrode, or bend out of shape—even when fully loaded. Plus their large radius corners, rolled rims, and side ribs combine for a 75 lb capacity. They also have large comfort handles and wide hoppers for easy access and handling of items. Gray.

ERGONOMIC SOLUTIONS

THE WHY TO BUY

- Every 10 lb of lift = 150 lb of back stress
- 50 lb = Maximum weight to lift under ideal conditions
- Optimal work height comfort zone = 24" to 62" off the floor

Issue	Solution
Bending and lifting to move boxes to bench or workstation.	Work Height Platform Trucks are durable and mobile options for transporting boxes and other large items. These trucks—offered in fixed height and adjustable styles—reduce the strain of lifting and bending, and allow for easy transfer to workstations.
Bending and lifting to move stacked items.	Dollies are an ideal way to transport stacked boxes or other bulky, heavy items. Optional tow eyes and handles ease transport.

Akro-Mils. *Ergonomics Solutions from Akro-Mils.* https://www.akro-mils.com/Resources/Guides/ERGONOMICS.pdf. 2015.

LARGE PROCART™ UTILITY CART

Featuring high-density structural foam construction, this cart is dent resistant and rustproof. Capable of handling up to 200 lb per shelf, it has hinged side gates on both shelves that flip up or down for flat-top or box-top conversions. And its I-beam posts make loading and unloading boxes on the bottom shelf easy. Durable non-marking wheels can also be locked with a single toe touch. Light assembly required. 45⅝"L x 34¾"H x 24"W. Gray.

HEAVY-DUTY 2-SHELF UTILITY CART

Featuring sturdy structural foam construction that won't rust, dent, chip or peel, these carts are not only durable but also lightweight and highly maneuverable. And their rounded corners protect walls and furniture, while their large non-marking swivel casters protect floors. And they come with ergonomically designed push handles and molded-in storage compartments, holsters, hooks, notches, and customizable fittings. Easy-access lipped shelves are standard too. Black.

450088BKRM

HEAVY-DUTY PLATFORM TRUCK

Ideal for moving large, heavy loads in almost any environment, this truck features an ergonomically designed push handle for improved control and worker safety. Its **Duramold**™ precision-engineered resin and metal-composite structure also offers unsurpassed durability and service life, while molded-in tie-down slots add load security. It has a textured deck, too, to reduce load slippage and a perimeter deck channel to retain small items. Other features include handle retainer clips, two fixed and two swivel casters, and a powder-coated steel handle and frame. 1000 lb capacity. 36" x 24". Black.

VERSA/DECK™ BOX TRUCKS

Ideal for heavy-duty jobs, these trucks feature non-skid structural foam decks that won't rot, chip, dent, or rust. And their underdecks have steel reinforcements and bolt-on casters for exceptional durability. Plus their crossback swayback handles feature durable powder-coated finishes, while steel outside deck handle pockets are welded on for maximum toughness. Other features include jam bolts to hold handles in place and four molded-in tie-down slots to secure things. 2000 lb capacity. Black.

CONVERTIBLE PLATFORM TRUCK

NEW

449600BKRM

Featuring a unique, push-button convertible design, this truck quickly transforms a 52" x 24" platform or U-boat truck (1000 lb capacity) into a 44" x 24" heavy-duty two-shelf utility cart (750 lb capacity). It also has slide locking latches to prevent handle removal and a **Duramold™** precision-engineered resin and metal composite structure. Molded-in tie down slots offer load security, too, while its textured deck reduces load slippage and a perimeter deck channel retains small items. Other features include handle retainer clips, two fixed and two swivel casters, and a powder-coated steel handle and frame. Black.

● 449600BKRM	Convertible Truck

SIDE PANEL PLATFORM TRUCK

NEW

448600BKRM

Ideal for transporting and retaining small packages and materials, this truck features heavy-duty, powder-coated wire side panels that are individually removable to accommodate oversized loads. Plus these panels have cutouts for ergonomic access to the truck's load. It also has a **Duramold™** precision-engineered resin and metal composite structure. Molded-in-tie-down slots offer load security, too, while its textured deck reduces load slippage and a perimeter deck channel retains small items. Other features include handle retainer clips, two fixed and two swivel casters, and a powder-coated steel handle and frame. 2000 lb capacity. 48" x 24". Black.

ROTOMOLDED TILT TRUCK

130600BKRM

Thanks to its industrial-strength construction, this truck transports heavy loads with ease. It features a seamless, one-piece molded truck body with a reinforced lip. And its sturdy plastic construction won't rust, dent, chip, or peel. A 4" center swivel back caster provides easy maneuvering, while one-piece 10" blow-molded polypropylene inset wheels protect surroundings. Its powder-coated steel frame offers corrosion resistance too. 1400 lb/½ cu yd capacity. 60½"L x 38⅜"H x 28"W. Black.

2-SHELF SERVICE CART

SB236U5B5J

NEW

Jamco Products

Featuring all-welded construction, this durable cart also comes with 12 ga steel shelves and caster mounts for long lasting use. It also has 3/16" thick angle corners and a tubular handle with a smooth radius bend for extra comfort and uniform appearance. Other features include bolt-on urethane casters (two rigid and two swivel with brakes) for easy replacement and superior cart tracking. Its shelves are lipped, too, for part/supply retention. 1200 lb capacity. 36" x 24". Gray.
